Revitalising Audience Research Frauke Zeller, Cristina Ponte, Brian O'Neill, 2014-10-24 The revitalisation of audience studies is not only about new approaches and methods it entails a crossing of disciplines and a bridging of long established boundaries in the field The aim of this volume is to capture the boundary crossing processes that have begun to emerge across the discipline in the form of innovative interdisciplinary interventions in the audience research agenda Contributions to this volume seek to further this

process though innovative audience oriented perspectives that firmly anchor media engagement within the diversity of contexts and purposes to which people incorporate media in their daily lives in ways often unanticipated by industries and professionals Bernard Williams on Philosophy and History ,2025-10-21 For Bernard Williams philosophy and history are importantly connected His work exploits this connection in a number of directions he believes that philosophy cannot ignore its own history the way science can that even when engaging with philosophy s history primarily to produce history one needs to draw on philosophy and that when doing the history of philosophy primarily to produce philosophy one still needs a sense of how historically distant past philosophers are because the point of reading them is to confront something different from the present But Williams also holds that systematic philosophy itself needs to be done historically engaging not just with its own history but with that of the concepts it seeks to understand To explore these different ways in which philosophy and history intertwine this volume assembles specially commissioned contributions by A W Moore Terence Irwin Sophie Grace Chappell Catherine Rowett Marcel van Ackeren John Cottingham Gerald Lang Lorenzo Greco Paul Russell Carla Bagnoli Peter Kail David Owen Giuseppina D Oro James Connelly Matthieu Queloz Nikhil Krishnan John Marenbon Ralph Wedgwood Garrett Cullity Hans Johann Glock Geraldine Ng Ilaria Cozzaglio Amanda R Greene and Miranda Fricker They critically appraise Williams s work in and on the history of philosophy as well as his historicist turn and his use of genealogy The collection uniquely combines substantive discussions of historical figures from Homer to Wittgenstein with methodological discussions of how and why the history of philosophy should be done and how and why philosophy should draw on history
