Audrey Rose:

The Horror Film Peter Hutchings, 2014-09-11 The Horror Film is an in depth exploration of one of the most consistently popular but also most disreputable of all the mainstream film genres Since the early 1930s there has never been a time when horror films were not being produced in substantial numbers somewhere in the world and never a time when they were not being criticised censored or banned The Horror Film engages with the key issues raised by this most contentious of genres It considers the reasons for horror s disreputability and seeks to explain why despite this horror has been so successful Where precisely does the appeal of horror lie An extended introductory chapter identifies what it is about horror that makes the genre so difficult to define The chapter then maps out the historical development of the horror genre paying particular attention to the international breadth and variety of horror production with reference to films made in the United States Britain Italy Spain and elsewhere Subsequent chapters explore The role of monsters focusing on the vampire and the serial killer The usefulness and limitations of psychological approaches to horror The horror audience what kind of people like horror and what do other people think of them Gender race and class in horror how do horror films such as Bride of Frankenstein The Texas Chainsaw Massacre and Blade relate to the social and political realities within which they are produced Sound and horror in what ways has sound contributed to the development of horror Performance in horror how have performers conveyed fear and terror throughout horror s history 1970s horror was this the golden age of horror production Slashers and post slashers from Halloween to Scream and beyond The Horror Film throws new light on some well known horror films but also introduces the reader to examples of noteworthy but more obscure horror work A final section provides a guide to further reading and an extensive bibliography Accessibly written The Horror Film is a lively and informative account of the genre that will appeal to students of cinema film teachers and researchers and horror lovers everywhere

The Films of Robert Wise Richard C. Keenan, 2007-08-22 From his early days as a film editor at RKO studios where he helped Orson Welles shape Citizen Kane to

his success as a director and producer of musical blockbusters of the 1960s Robert Wise had a long and illustrious film career Unlike contemporaries such as Alfred Hitchcock John Ford or Howard Hawks however Wise s films lack any clearly discernible characteristics to signify his work There are few striking camera angles or visual flourishes that might distract from the primary obligation to present the story And like Hawks Wise never specialized in one or two genres but brought his directing skills to all manner of films His work as a director resists auteur categorization and that is a chief reason why some critics have been unduly negative in their consideration of his work In *The Films of Robert Wise* Richard Keenan examines the nearly forty features that represent the director s career from *Curse of the Cat People* in 1944 to *A Storm in Summer* 2001 the only television production Wise ever directed Keenan offers a reappraisal of Wise s films so that the true quality of his work can be better appreciated Keenan argues that if there was a flaw in Robert Wise as a director it was that he lacked the ego and temperament of the artist which was not necessarily a flaw at all Indeed Wise was a conscientious craftsman who saw his work not primarily as a vehicle for his own ideas and visual style but as an opportunity to present narrative that quite simply engages informs and entertains It was this perspective that helped produce a number of memorable films over the years including the gritty noir *Born to Kill* the one two punch of *The Set Up* and *Somebody Up There Likes Me* the sci fi prophecy *The Day the Earth Stood Still* and the gripping indictment of capital punishment *I Want to Live* classics all Wise also won a pair of Oscars for two of the most memorable not to mention successful musicals of all time *West Side Story* and *The Sound of Music* Drawing on more than 30 hours of interviews with Wise as well as additional interviews with a number of his collaborators Keenan offers a welcome reassessment of the director s work In his analysis of each film Keenan reveals both Wise the craftsman and the artist In doing so *The Films of Robert Wise* finally confers upon this underappreciated director the recognition he deserves

book undertakes a study of the trope of possessed child in literature and film It argues that the possessed child is fundamentally an American phenomenon which first may be traced to the Calvinist bias of the US as a nation founded on Puritanism and second to the rise of Catholicism in that country to which Puritanism owes its origins *The Sketch* ,1900
