Urban Panegyric and the Transformation of the Medieval City, 1100-1300 Paul Oldfield, 2018-12-27

This study offers the first extensive analysis of the function and significance of urban panegyric in the Central Middle Ages a flexible literary genre which enjoyed a marked and renewed popularity in the period 1100 to 1300 In doing so it connects the production of urban panegyric to major underlying transformations in the medieval city and explores praise of cities primarily in England Flanders France Germany Iberia and Italy including the South and Sicily The volume demonstrates how laudatory ideas on the city appeared in extremely diverse textual formats which had the potential to interact with a wide audience via multiple textual and material sources When contextualized within the developments of the twelfth and thirteenth centuries these ideas could reflect more than formulaic rhetorical outputs for an educated elite they were instead integral to the process of urbanisation In *Urban Panegyric and the Transformation of the Medieval City 1100 1300* Paul Oldfield assesses the generation of ideas on the Holy City on counter narratives associated with the Evil City on the inter relationship between the City and abundance primarily through discourses on commercial productivity hinterlands and population size on landscapes and sites of power and on knowledge generation and the construction of urban histories Urban panegyric can enable us to comprehend more deeply material functional and ideological change associated with the city during a period of notable urbanization and importantly how this change might have been experienced by contemporaries This study therefore highlights the importance of urban panegyric as a product of and witness to a period of substantial urban change In examining the laudatory depiction of medieval cities in a thematic analysis it can contribute to a deeper understanding of civic identity and its important connection to urban transformation

The Spiritual Rococo Gauvin Alexander Bailey, 2017-07-05 A groundbreaking approach to Rococo religious d r and spirituality in Europe and South America The *Spiritual Rococo* addresses three basic conundrums that impede our understanding of eighteenth century aesthetics and culture Why did the Rococo ostensibly the least spiritual style in the pre Modern canon transform into one of the world s most important modes for adorning sacred spaces And why is Rococo still treated as a decadent nemesis of the Enlightenment when the two had fundamental characteristics in common This book seeks to answer these questions by treating Rococo as a global phenomenon for the first time and by exploring its moral and spiritual dimensions through the lens of populist French religious literature of the day a body of work the author calls the *Spiritual Rococo* and which has never been applied directly to the arts The book traces Rococo s development from France through Central Europe Portugal Brazil and South America by following a chain of interlocking case studies whether artistic literary or ideological and it also

considers the parallel diffusion of the literature of the Spiritual Rococo in these same regions placing particular emphasis on unpublished primary sources such as inventories One of the ultimate goals of this study is to move beyond the cliché of Rococo's frivolity and acknowledge its essential modernity Thoroughly interdisciplinary The Spiritual Rococo not only integrates different art historical fields in novel ways but also interacts with church and social history literary and post colonial studies and anthropology opening up new horizons in these fields
