August Sander:

August Sander August Sander, J. Paul Getty Museum, 2000 Including an edited transcription of a colloquium on Sander's life and work this title contains plates selected from the J Paul Getty Museum's collection Sander's works exemplify the contradictory nature of early 20th century Germany **August Sander**, 2019-04-23 A new entry in the Photofile series this book features the work of August Sander one of the early twentieth century's most important photographers August Sander 1876-1964 was a documentary photographer whose greatest project lasted his entire working life His series of portrait studies of the German people spanning three eras the German Empire the Weimar Republic and Nazi Germany and every social class combine to form a fascinating social mirror of the country over a tumultuous period in its history Working with calm determination Sander cast the same lucid eye on bankers and boxers soldiers and circus performers creating strikingly honest images that fulfill his sole ambition to tell the truth about humanity **August Sander : Photographs from People of the 20th Century** August Sander, 2020 **Photography** Mary Warner Marien, 2006 Each of the eight chapters takes a period of up to forty years and examines the medium through the lenses of art science social science travel war fashion the mass media and individual practitioners Back Cover **Extraordinary Images of Ordinary People** August Sander, Judy Annear, Virginia Heckert, 2007 *August Sander, 1876-1976* August Sander, 1976 August Sander Villa Grisebach Auktion, 2019 *August Sander* August Sander, 1989 **August Sander** August Sander, Gerd Sander, National Portrait Gallery (Great Britain), 1996 *August Sander* August Sander, 1997 Photographs by August Sander *August Sander, 1876-1976* August Sander, 1976 Physiognomy in Profile Melissa Percival, Graeme Tytler, 2005 Physiognomy in Profile affirms and assesses Lavater's contribution to European culture in the two hundred years after his death It examines how Lavater's vision of physiognomy as a viable method of interpreting the modern world has been repeatedly affirmed and challenged Previous monographs on Lavater have tended to focus on one particular theme discipline or historical period but this study deliberately adopts a cross disciplinary approach and covers a broad historical time frame Some widely different material is juxtaposed painting photography fiction journalism medical texts in order to explore recurring issues in physiognomical thought Essays are arranged in chronological order so that the reader can gain a sense of the shared preoccupations of Lavater's contemporaries and successors But the book may also be read thematically **BOOK JACKET**

August Sander Weston J. Naef, August Sander, 1991 **August Sander** August Sander, 1980 **The Image in Dispute** Dudley Andrew, 1997 Photography cinema and video have irrevocably changed the ways in which we view and interpret images Indeed the mechanical reproduction of images was a central preoccupation of twentieth century philosopher Walter Benjamin who recognized that film would become a vehicle not only for the entertainment of the masses but also for consumerism and even communism and fascism In this volume experts in film studies and art history take up the debate begun by Benjamin about the power and scope of the image in a secular age Part I aims to bring Benjamin's concerns

to life in essays that evoke specific aspects and moments of the visual culture he would have known Part II focuses on precise instances of friction within the traditional arts brought on by this century's changes in the value and mission of images Part III goes straight to the image technologies themselves photography cinema and video to isolate distinctive features of the visual cultures they help constitute As we advance into the postmodern era in which images play an ever more central role in conveying perceptions and information this anthology provides a crucial context for understanding the apparently irreversible shift from words to images that characterized the modernist period It will be important reading for everyone in cultural studies film and media studies and art history

The Photographic Uncanny Claire Raymond, 2019-11-23 This book argues for a renewed understanding of the fundamentally uncanny quality of the medium of photography It especially makes the case for the capacity of certain photographs precisely through their uncanniness to contest structures of political and social dominance The uncanny as a quality that unsettles the perception of home emerges as a symptom of modern and contemporary society and also as an aesthetic apparatus by which some key photographs critique the hegemony of capitalist and industrialist domains The book's historical scope is large beginning with William Henry Fox Talbot and closing with contemporary indigenous photographer Bear Allison and contemporary African American photographer Devin Allen Through close readings exegesis of individual photographs and careful deployment of contemporary political and aesthetic theory *The Photographic Uncanny* argues for a re-envisioning of the political capacity of photography to expose the haunted homeless condition of modernity
