A beautiful book that showcases how circus figures and artifacts have been portrayed in art over the past two centuries The circus is a dazzling world filled with acrobats and harlequins tumblers and riders monsters and celestial creatures Now this engaging book sets that world in a new light examining how painters sculptors and photographers from the eighteenth century to the present have used the circus as a springboard for their imaginative expression and have envisioned the clown as a metaphor for the modern artist The book presents more than 175 works by such artists as Degas Toulouse Lautrec Rouault Picasso Chagall and L ger Some of these are masterful works shown for the first time these range from the 18 meter stage curtain Picasso designed in 1917 for Erik Satie s ballet Parade to more intimate works such as Nadar and Tournachon s photographs of Pierrot as played by celebrated mime Charles Debureau *Masterpieces/Masterprints* August Sander, 2018-08-24 *August Sander* August Sander, Gerd Sander, National Portrait Gallery (Great Britain), 1996
