Augustinianism And Modern Theology:

Augustinianism and Modern Theology Henri de Lubac, 2000 This book focuses on a historical analysis of the genesis of the idea of pure nature which arose in reaction to the distorted Augustinianism of nominalist theologians at the end of the Middle Ages

The Givenness of Desire Randall S. Rosenberg, 2017-06-16 In *The Givenness of Desire* Randall S Rosenberg examines the human desire for God through the lens of Lonergan s concrete subjectivity Rosenberg engages and integrates two major scholarly developments the tension between Neo Thomists and scholars of Henri de Lubac over our natural desire to see God and the theological appropriation of the mimetic theory of Ren Girard with an emphasis on the saints as models of desire With Lonergan as an integrating thread the author engages a variety of thinkers including Hans Urs von Balthasar Jean Luc Marion Ren Girard James Alison Lawrence Feingold and John Milbank among others The theme of concrete subjectivity helps to resist the tendency of equating too easily the natural desire for being with the natural desire for God without at the same time acknowledging the widespread distortion of desire found in the consumer culture that infects contemporary life *The Givenness of Desire* investigates our paradoxical desire for God that is rooted in both the natural and supernatural

The Augustinian Revolution in Theology Thomas Allin, 1911

Augustinian and Ecclesial Christian Ethics D. Stephen Long, 2018-08-15 What is the relationship between the command to love one s enemies and the use of violence and or other coercive political means This work examines this question by comparing and contrasting two important contemporary approaches to Christian ethics neoAugustinian and the ecclesial or neoAnabaptist It traces the complicated conversation that has taken place since John Howard Yoder took on Reinhold Niebuhr s interpretation of the Anabaptists in the 1940 s It consists of three parts The first part traces the development of the Augustinian Niebuhrian approach to ethics from Niebuhr through those who have advanced his work including Paul Ramsey Timothy Jackson Charles Mathewes Eric Gregory and Jennifer Herdt It also examines the Augustinian ethics of Oliver O Donovan John Milbank and Nicholas Wolterstorff Along with tracing the Augustinian approach and its trajectories through agapism theology and the interpretation of Augustine it identifies fifteen criticisms that this approach brings against the neoAnabaptists The second part traces the origin of the ecclesial or neoAnabaptist approach and then examines its relationship to and criticism of agapism what theological doctrines are central and its interpretation of Augustine Its purpose is primarily constructive by explaining the role that ecclesiology Christology and eschatology have among the neoAnabaptists The third part addresses the criticisms levied by Augustinians against the neoAnabaptists by drawing on the constructive theology in the second part It intends to show where the Augustinian critics are correct where they have missed key theological teachings and where

they misrepresent It also assesses the summons to the nationalist project the Augustinians put to the neoAnabaptists If this work is successful this third part will not be defensive It will instead illumine the reasons for the criticisms and suggest means by which the conversation that began between Yoder and Niebuhr can continue and possibly bear fruit for theological ethics in both its ecclesial and nationalist projects for generations to come

The Foundations of Philosophy Michael Pol Macneil, 2025-06-03 This work is about philosophy and what makes a philosophy distinctively Christian in character arguing that it is indeed possible for philosophy to be conceived of as first Christian and not just philosophy done by people that happen to be Christians Christian philosophy is epistemologically self conscious philosophy conducted in a manner honoring to the revelation of the Hebrew and Christian scriptures It is argued that philosophy should be transformative rather than just therapeutic or elucidatory The author examines competing philosophical and scientific accounts from both the empiricist and rationalist schools arguing they are coherent and successful only to the degree that they have imported consciously or unconsciously Christian transcendentals He then applies this insight to explore the character and practice of a Christian political philosophy

High Way to Heaven: The Augustinian Platform Between Reform and Reformation, 1292-1524 Eric Leland Saak, 2021-12-28 This volume reveals the political religious theological institutional and mythical ideals that formed the self identity of the Augustinian Order from Giles of Rome to the emergence of Martin Luther Based on detailed philological analysis this interdisciplinary study not only transforms the understanding of Augustine s heritage in the later Middle Ages but also that of Luther s relationship to his Order The work offers a new interpretative model of late medieval religious culture that sheds new light on the relationship between late medieval Passion devotion the increasing demonization of the Jews and the rise of catechetical literature It is the first volume of a planned trilogy that seeks to return late medieval Augustinian theology to the historical context of Augustinian religion

Political Augustinianism Michael J.S. Bruno, 2014-09-01 The thought of Saint Augustine stands as one of the central fountainheads of not only theology but Western social and political theory Political Augustinianism examines modern political readings of Augustine providing an extensive account of the pivotal French British and American strands of interpretation Bruno guides readers through these modern strands of interpretation examines their historical theological and socio political context and discusses the hermeneutical underpinnings of the modern discussion of Augustine s social and political thought

Tensions in Christian Ethics Malcolm Brown, 2011-01-01 The book draws on the author s teaching of ethics at undergraduate and postgraduate level for the Cambridge Theological Federation since 2000 Its purpose is to introduce the reader to questions in Christian ethics through a careful examination of the fundamental meta ethical questions posed by the state we re in whether understood as a new phase of modernity or as postmodernity Brown draws on sources and authors from a variety of Christian traditions and from Britain the U S A and Europe The book will be of use not only to university departments and denominational and ecumenical teaching institutions but also as a more general exposition of the current state of ethical

thinking in the Christian churches *Luther's Augustinian Theology of the Cross* Marco Barone,2017-06-06 These theological paradoxes have been deduced well or poorly from St Paul the especially chosen vessel and instrument of Christ and also from St Augustine his most trustworthy interpreter These are some of Martin Luther s words that introduce his Heidelberg Disputation 1518 a collection of doctrinal theses that serves as a manifesto of Luther s theology The German Reformer claimed that his theses were a faithful exposition not only of Pauline theology but also of Augustine s doctrine of salvation Luther s Augustinian Theology of the Cross is an unprecedented commentary of Luther s Heidelberg Disputation Through a wide range of Augustinian texts the author shows the accuracy of Luther s claim Moreover the work offers some original considerations that are of interest to both theology and philosophy In the year of the 500th anniversary of the Reformation this volume is a lively and stimulating addition to the debate about the relationship between Augustine s soteriology and the theology of the Reformation **International Philosophical Quarterly** ,1997 **Vatican II on Church-State Relations** M. Y. Ciftci,2024-04-17 Should religion and politics be kept apart What should be the relationship between the church and the state M Y Ciftci answers these questions by studying the most important event in the recent history of the Catholic Church The Second Vatican Council 1962-65 The book provides a new interpretation of the Council s teaching on church state relations to better appreciate its flaws and need for reform By paying attention to the often overlooked importance given by the Council to the lay apostolate it reveals how the Council did not reform as is often thought but retained a flawed conception of the laity s role in politics It then proposes a new framework for understanding church state relations using the ressourcement method of returning to scripture and tradition and by a critical dialogue with Oliver O Donovan and various Protestant biblical scholars of the Powers in the New Testament Ciftci shows how fruitful an self consciously ecumenical approach can be for political theology As most ressourcement theologians have overlooked political issues and since ecumenical theology rarely touches on issues of church state relations this work makes an original contribution to the ressourcement project and to ecumenism *Text-book of the History of Doctrines* Reinhold Seeberg,1905 *Augustine and Modernity* Michael Hanby,2003 Augustine and Modernity is a fresh and challenging addition to current debates about the Augustinian origins of modern subjectivity and the Christian genesis of Western nihilism It firmly rejects the dominant modern view that the modern Cartesian subject as an archetype of Western nihilism originates in Augustine s thought Arguing that most contemporary interpretations misrepresent the complex philosophical relationship between Augustine and modern philosophy particularly with regard to the work of Descartes the book examines the much overlooked contribution of Stoicism to the genealogy of modernity producing a scathing riposte to commonly held versions of the continuity thesis Michael Hanby identifies the modern concept of will that emerges in Descartes work as the product of a notion of self more proper to Stoic theories of immanence than to Augustine s own rigorous understandings of the Trinity creation self and will Though Augustine s encounter with Stoicism ultimately resulted in much of his teaching

being transferred to Descartes and other modern thinkers in an adulterated form Hanby draws critical attention to Augustine's own disillusionment with Stoicism and his interrogation of Stoic philosophy in the name of Christ and the Trinity Representing a new school of theology willing to engage critically with other disciplines and to challenge their authority Augustine and Modernity offers a comprehensive new interpretation of De Trinitate and of Augustinian concepts of will and soul Revealing how much of what is now thought of as Augustinian in fact has its genealogy in Stoic asceticism it interprets the modern nihilistic Cartesian subject not as a logical consequence of a true Christian Trinitarian theology but rather of its perversion and abandonment **Alexandrian and Carthaginian Theology, Contrasted** John Bickford Heard, 1893
