Lenkov,Frazer Irving,2003 Lo A mighty prophet of the unexplained has come forward to search out the truth and light the way for mankind It s the end of the 19th century and the city of New York has been plagued by fish falling from the sky strange lights in the night bizarre collections of microbial goo and vanishing citizens It s up to one man to expose the truth behind these events Charles Fort A mild mannered librarian by day Fort seeks out the truth and exposes the bizarre to the light of day      *Open Secrets*

Christine Ferguson, 2025 *Open Secrets* sheds new light on the fascinating popular fiction produced by key writers within Britain's occult revival including Edward Bulwer Lytton, Emma Hardinge Britten, Marie Corelli, Mabel Collins, Arthur Machen, Charles Fort, Aleister Crowley, and Dion Fortune. In their hands, genres aimed at mass readerships—the Bildungsroman, romance, tabloid, tit-bit, and detective tale—became potent tools through which to imagine and test unorthodox ideas about the unseen world. Their remarkable literary experiments aligned the rhythms of popular genre fiction with those of spiritual seekership, insisting that occultism could and should be for the mass reading public.

*UFOs and Popular Culture* James R. Lewis, 2000-12-01 From religious beliefs and legends to movies and TV shows, from advertising and celebrities to Internet sites and photo ops, this illustrated A-Z encyclopedia makes it easy to locate each topic and the opportunities for further research. It assures its timeliness. Is the human race the result of a breeding experiment carried out by ancient astronauts? Are Satanists, extraterrestrials, or both mutilating cattle? Whimsical and fascinating, *UFOs and Popular Culture* explores a rich facet of Americana and its impact on contemporary society. The UFO phenomenon is put into folkloric and psychological perspective, revealing much about our collective psyche. From religious beliefs and legends to movies and TV shows, from advertising and celebrities to Internet sites and photo ops, this illustrated A-Z encyclopedia is your first stop resource for understanding UFO beliefs and their impact on contemporary America. Topics explored include Music and UFOs, Naked Aliens, Reincarnation, Roswell, Brad Steiger, Heaven's Gate, War of the Worlds, and UFO Conventions.

**Pseudoscience and Science Fiction** Andrew May, 2016-09-13 Aliens, flying saucers, ESP, the Bermuda Triangle, antigravity—are we talking about science fiction or pseudoscience? Sometimes it is difficult to tell the difference. Both pseudoscience and science fiction (SF) are creative endeavours that have little in common with academic science beyond the superficial trappings of jargon and subject matter. The most obvious difference between the two is that pseudoscience is presented as fact, not fiction. Yet like SF and unlike real science, pseudoscience is driven by a desire to please an audience; in this case, people who want to believe. This has led to significant cross-fertilization between the two disciplines. SF authors often draw on real pseudoscientific theories to add verisimilitude to their stories, while on other occasions, pseudoscience takes its cue from SF, the symbiotic relationship between ufology and Hollywood being a prime example of this. This engagingly written, well-researched, and richly illustrated text explores a wide range of intriguing similarities and differences between pseudoscience and the fictional science found in SF. Andrew May has a degree in Natural Sciences from Cambridge University and a PhD in astrophysics from Manchester University. After many years in academia and the private sector, he now works as a freelance writer and scientific consultant. He has written pocket biographies of Newton and Einstein, as well as contributing to a number of popular science books. He has a lifelong interest in science fiction and has had several articles published in *Fortean Times* magazine.
