Charlottesville Tapes:

The Charlottesville Tapes Stephen Corelli, 1985-04 Top modern architects from around the world share their most recent designs and discuss the reasoning behind them Charlottesville tapes; transcript of the conference at the university school of architecture Charlottesville, Virginia, november 12 and 13, 1982, 1985 **The Charlottesville Tapes**, 1985 USA

Gwendolyn Wright, 2008-02-15 Gwendolyn Wright's USA is an engaging account the evolution of American architecture from the late nineteenth century to the twenty first Exquisite Corpse Michael Sorkin, 1991 Exquisite Corpse was a game played by the surrealists in which someone drew on a piece of paper folded it and passed it to the next person to draw on until finally the sheet was opened to reveal a calculated yet random composition In this entertaining and provocative book Michael Sorkin suggests that cities are similarly assembled by many players acting with varying autonomy in a complicit framework An unfolding terrain of invention the city is also a means of accommodating disparity of contextualizing sometimes startling juxtapositions Sorkin's aim is to widen the debate about the creation of buildings beyond the immediate issues of technology and design He discusses the politics and culture of architecture with daring often devastating observations about the institutions and personalities who have dominated the profession over the past decade Their preoccupation with the empty style of beach houses and Disneyland has consistently trivialized the full constructive scope of contemporary architecture's possibilities Sorkin's interventions range from the development scandals of New York where skyscrapers stand at the intersection between grid and greed through the deconstructivist architectural culture of Los Angeles to the work and ideas of architects developers and critics such as Alvar Aalto Norman Foster Paul Goldberger Michael Graves Coop Himmelblau Philip Johnson Leon Krier Frank Lloyd Wright Richard Rogers Carlo Scarpa James Stirling Donald Trump Tom Wolfe and Lebbeus Woods Throughout Sorkin combines stinging polemic with a powerful call for a rebirth of architecture that is visionary and experimental a recuperated dreamy science **Between Memory and Invention** Robert A.M. Stern, 2022-03-08 A capsule history of American architecture since 1960 Wall Street Journal Architect historian and educator Robert A M Stern presents a personal and candid assessment of contemporary architecture and his fifty years of practice For more than fifty years Robert A M Stern has designed extraordinary buildings around the world Founding partner of Robert A M Stern Architects RAMSA Stern was once described as the brightest young man I have ever met in my entire teaching career by Philip Johnson and recently called New York City's most valuable architect by Bloomberg Encompassing autobiography institutional history and lively behind the scenes anecdotes Between Memory and Invention My Journey in Architecture surveys the world of architecture from the 1960s to the present and Robert A M Stern's critical role in it The book chronicles Stern's formative years architectural education and half century of architectural practice touching on all the influences that shaped him He details his Brooklyn upbringing family excursions to look at key twentieth century buildings and relationships with prominent teachers Paul Rudolph and the legendary Vincent Scully among them Stern also recounts

the origins of RAMSA and major projects in its history including the new town of Celebration Florida the restoration of Times Square and 42nd Street 15 Central Park West Benjamin Franklin and Pauli Murray Colleges at Yale and the George W Bush Presidential Center as well as references the many clients fellow architects and professional partners who have peopled his extraordinary career By turns thoughtful critical and irreverent this accessible informative account of a life in architecture is replete with personal insights and humor Stern s voice comes through clearly in the text he details his youthful efforts to redraw house plans in real estate ads his relationship to Philip Johnson which began at Yale and was sustained through countless lunches at the Four Seasons his love of Cole Porter and movies from the 1930s and 1940s his struggle to launch an architecture practice in the 1970s in the midst of a recession and his complex association with Disney and Michael Eisner Unsurprisingly New York City plays a big role in *Between Memory and Invention* Stern has a deep commitment to the city and recording its past he is the lead author of the monumental New York book series the definitive history of architecture and urbanism from the late nineteenth century to the present and shaping its future Though now a global practice RAMSA residential towers rise throughout Manhattan to enrich the skyline in the tradition of the luxurious apartment buildings of the 1920s and 1930s Supported by a lively mix of images drawn from Stern s personal archive and other resources this much anticipated memoir is interspersed with personal travel slides images of architectural precedents and the colleagues that have shaped his thinking and photographs of the many projects he discusses With a thoughtful afterword by architectural historian Leopoldo Villardi that delves into Stern s process of putting together this extraordinary autobiographical work *Between Memory and Invention* is a personal candid assessment of a foremost practitioner historian instructor and advocate of architecture today *Philip Johnson and His Mischief* Christian Bjone, The Images Publishing Group, 2014-04-04 In the world of modern art the idea of appropriation or the conscious manipulation of the recognised world of another artist has long been accepted as a legitimate strategy in criticism of the tradition of art authorship challenging the context of viewing contemporary work and the manipulation of omnipresent media images The world of art itself is fair game to be pillaged or mined in the production of new art but there is almost no recognised equivalent aesthetic in architecture Philip Johnson consistently dealt with the concept of appropriation and used it as a design strategy from the very beginning of his illustrious career A singular taste maker Philip Johnson influenced art architecture and design during the second half of the 20th century Philip Johnson and His Mischief Appropriation in Art and Architecture looks at the concept of appropriation and how Johnson s style was influenced first by his mentor Mies van der Rohe and then by post modern ideas and artists This title serves to review Johnson s body of work and show that far from being a weakness his use of appropriation was a major part of his innovative success **Architecture's Odd Couple** Hugh Howard, 2016-05-24 In architectural terms the twentieth century can be largely summed up with two names Frank Lloyd Wright and Philip Johnson Wright 1867 1959 began it with his romantic prairie style Johnson 1906 2005 brought down the curtain with his spare postmodernist experiments Between

them they built some of the most admired and discussed buildings in American history Differing radically in their views on architecture Wright and Johnson shared a restless creativity enormous charisma and an outspokenness that made each man irresistible to the media Often publicly at odds they were the twentieth century s flint and steel their repeated encounters consistently set off sparks Yet as acclaimed historian Hugh Howard shows their rivalry was also a fruitful artistic conversation one that yielded new directions for both men It was not despite but rather because of their contentious and not always admiring relationship that they were able so powerfully to influence history In *Architecture s Odd Couple* Howard deftly traces the historical threads connecting the two men and offers readers a distinct perspective on the era they so enlivened with their designs Featuring many of the structures that defined modern space from Fallingwater to the Guggenheim from the Glass House to the Seagram Building this book presents an arresting portrait of modern architecture s odd couple and how they shaped the American landscape by shaping each other *Engineering Architecture* Yasmin Sabina Khan,2004 The structural engineer responsible for Chicago s John Hancock Center and Sears Tower Fazlur R Khan 1929 1982 pioneered structural systems for high rise design that broadened the palette of building forms and expressions available to design professionals today **Tracing Eisenman** Stan Allen,Peter Eisenman,2006 A complete monograph of legendary and cult architect Peter Eisenman that sums up and fully illustrates his lifetime s achievement from his first work House I 1960 to his most recent projects currently under construction in the US Spain and Germany The book is centred on 63 of Eisenman s most significant projects interspersed by essays from international architects *Perspecta* ,2001 *Architectural Record* ,2001 **Twentieth-century Artists on Art** Jack Robertson,1996 *Virginia Studio Record* ,1988 *Colonnade* ,1988 **Metropolis** ,1985-07 **The Publishers Weekly** ,1910 **The Library of Congress Cooperative Acquisitions Program for India and the Management of Indian Language Materials in the Academic and Research Libraries in the United States** Jessie Satyanesan,1992 *The Artist's Journey to the Interior Designer* Margaret Soitan,1989 *Philip Johnson* Philip Johnson,Hilary Lewis,1994 The career of Philip Johnson dean of American architecture and international spokesperson for an entire generation of modern and postmodern architects spans over 50 years and countless projects In a series of interviews the architect selects and discusses 20 favorite buildings providing a rare glimpse into the mind of a master architect at work Photographs
