Chart Reading For Professional Traders:

Chart Reading for Professional Traders Michael S. Jenkins, 1996 This book is a complete comprehensive study on reading charts forecasting the markets time cycles and trading strategies Explains reversal of trends when to expect them and how to know the trend has changed Shows you how to forecast with great reliability how long the new trend will last and its price target As does *Geometry of Markets* this book discusses in depth the Gann techniques of time and price Progresses to the very advanced concepts of day trading with circular arc segments and calculating final high and low price targets Each principle is demonstrated with numerous chart illustrations and real world applications The information found in this book is unique with many of the techniques discovered personally by Mr Jenkins and found nowhere else

Trading Basics for complete Beginners Jose Pecunia, Trading is not a get rich quick business You can become well off have financial security and freedom to do anything you want in the trading business and you can do it anywhere in the world however it takes time and patience to learn it right and it involves a lot of waiting around till the market comes to you and gives you what you want Trading Basics for complete Beginners can help you see if trading is right for you and help you to learn what works for you before risking a dime All you need to risk at this juncture is your time and energy learning your new investing and trading business inside and out can you do that The money will come on its own trust me on that Trading can be daunting to learn for those with no experience with so much information out there This is why it is imperative to have the right information from the start on day one If you are new to trading and don t really know where to start Trading Basics for complete Beginners can help you Think about it why risk thousands of dollars in the market before you are ready There is a certain progression of steps that every new investor and trader need to know and study and must follow to become a consistently profitable professional investor and trader Trading Basics for complete Beginners can help you keep it simple and filter the huge amount of information out there down to only what you need to know right away and then can work towards adding more information and studies as you go Brand new traders all make the same mistakes over and over because they don t know any better now you do Newbie traders tend to do what everyone else is doing and study what everyone else is studying thus they have the same results and failures as everyone else Don t be that trader

Shortening the Day Trader Learning Curve Joseph Moneta, The learning curve for most brand new aspiring investors and traders can be long and very expensive if they begin the wrong way hortening the Day Trader Learning Curve is aimed at giving the beginning information you will need to cut down that long learning curve and get you going down the road to consistent profitability in the financial markets faster Brand new investors swing traders and also position traders and investors have a tendency to come into the financial market trading business with unrealistic expectations of how much money they can make from trading hortening the Day Trader Learning Curve will help new aspiring investors and traders understand what is needed right from the very start of your financial market trading and investing business from day one Make no mistake the market is not some game it is competition

at the highest level and your opponents are the best traders in the world and they are looking to drain your capital account on a daily basis are you going to let them do that By the time you have completed reading this entire book you will know what is needed of you to make it in this business Then it is up to you to take what you have read in hortening the Day Trader Learning Curve and capitalize on it in your education and in the live market so you can begin to make money right away hortening the Day Trader Learning Curve gives you clear concise information that you can use right away to begin making money if you follow what is said here You can make a fortune in the live financial market if you start off the right way from the first day with the right information No one wants to learn a bunch of unrealistic information that won t make them money in the live markets right No one is making you get into the trading business so I encourage you to read and absorb the information given here in hortening the Day Trader Learning Curve then perhaps do more data mining on your own if you want to make money quicker than your competition Brand new traders are their own worst enemy in the market when they first start out and that is because they have done all of the wrong things to start off hortening the Day Trader Learning Curve gives you examples of what and what not to do to expedite your learning curve and I strongly encourage you to follow what it says in here if you are a beginner with zero experience if you want to be consistently profitable in today s financial markets right away

Introduction to Day Trading for Complete Beginners Joe Valuta, Trading can be daunting to learn with so much information for those with no experience This is why it is imperative to have the right information from the start on day one If you are new to trading and don t really know where to start this book is right for you Think about it why go risk thousands of dollars in the market before you are ready Introduction to Day Trading for Complete Beginners can help you keep it simple and filter the huge amount of information out there down to only what you need to know right away and then can work towards adding more information and studies as you go Introduction to Day Trading for Complete Beginners can help you see if trading is right for you Learn what works for you before risking a dime All you need to risk at this juncture is your time and energy learning your new investing and trading business inside and out can you do that The money will come on its own trust me on that You can take that to the bank Everyone has their own ideas of what they think day trading and swing trading are and what it can do for them This book is for beginners and will detail many of the things that a brand new trader must learn to do before they can become consistently profitable in the live markets A lot of trading books teach a top down or a bottom up approach how about a right way approach and the right way from day one Mostly all of the trading books teach this business not only wrong but they teach it unrealistically Nothing in the market is guaranteed It s about putting all the probabilities of having a positive outcome in your favor and Introduction to Day Trading for Complete Beginners is the book that can help you do that if you are a brand new beginner
