**Posthumous America** Benjamin Hoffmann,2018-05-15 Benjamin Hoffmann s Posthumous America examines the literary idealization of a lost American past in the works of French writers of the eighteenth and nineteenth centuries For writers such as John Hector St John de Cr vec ur and Claude Fran ois de Lezay Marn sia America was never more potent as a driving ideal than in its loss Examining the paradoxical American paradise depicted in Cr vec ur s Lettres d un cultivateur am ricain 1784 the uchronotopia the imaginary perfect society set in America and based on what France might have become without the Revolution of Lezay Marn sia s Lettres crites des rives de l Ohio 1792 and the political and nationalistic motivations behind Fran ois Ren Chateaubriand s idealization of America in Voyage en Am rique 1827 and M moires d outre tombe 1850 Hoffmann shows how the authors liberties with the truth helped create the idealized and nostalgic representation of America that dominated the collective European consciousness of their times From a historical perspective Posthumous America works to determine when exactly these writers stopped transcribing what they actually observed in America and started giving imaginary accounts of their experiences A vital contribution to transatlantic studies this detailed exploration of French perspectives on the colonial era the War of Independence and the birth of the American Republic sheds new light on the French fascination with America Posthumous America will be invaluable for historians political scientists and specialists of literature whose scholarship looks at America through European eyes      **Smith College Studies in Modern Languages** ,1924      **Modern Philology** ,1923 Vols 30 54 include 1932 1956 of Victorian bibliography prepared by a committee of the Victorian Literature Group of the Modern Language Association of America      **A History of French Literature from the Earliest Times to the Great War** William Albert Nitze,Edwin Preston Dargan,1922      *Etude Sur la Langue Et Le Style de Leconte de Lisle* John Harold Whitely,1910      *Impossible Individuality* Gerald N. Izenberg,1992-06-03 Studying major writers and philosophers Schlegel and Schleiermacher in Germany Wordsworth in England and Chateaubriand in France Gerald Izenberg shows how a combination of political social and psychological developments resulted in the modern concept of selfhood More than a study of one national culture influencing another this work goes to the heart of kindred intellectual processes in three European countries Izenberg makes two persuasive and related arguments The first is that the Romantics developed a new idea of the self as characterized by fundamentally opposing impulses a drive to assert the authority of the self and expand that authority to absorb the universe and the contradictory impulse to surrender to a greater idealized entity as the condition of the self s infinity The second argument seeks to explain these paradoxes historically showing how romantic individuality emerged as a compromise Izenberg demonstrates how the Romantics retreated in part from a preliminary radically activist ideal of autonomy they had worked out under the impact of the French Revolution They had begun by seeing the individual self as the sole source of meaning and authority but the convergence of crises in their

personal lives with the crises of the revolution revealed this ideal as dangerously aggressive and self aggrandizing In reaction the Romantics shifted their absolute claims for the self to the realm of creativity and imagination and made such claims less dangerous by attributing totality to nature art lover or state which in return gave that totality back to the self
