Chatsworth A Landscape History:

Chatsworth John Barnatt, Tom Williamson, 2005 Set within the stunning landscape of the Peak District National Park exquisite Chatsworth House is one of the most visited properties in England Its vast gardens and parks which stand in direct contrast to the upland moors that surround them are the result of a labour of love by successive dukes and duchesses of Devonshire over a period of three hundred years 1600 to 1900 This wonderful book explores the history of this landscape both BC Before Chatsworth and later beginning with the earliest landscaping of the Elizabethan Bess of Hardwick and the ambitious project of the first dukes to create gardens and landscapes that complemented their innovative state of the art mansion completed at the turn of the 18th century Intended to delight amuse and impress the landscape was the result of earthmoving on a massive scale culminating in the extraordinary Canal Pond Further afield a deer park enclosures lakes weirs cascades and driveways tamed the moors The landscape was repeatedly transformed and recreated by successive generations of dukes designers and architects notably Capability Brown who naturalised the grounds in the 18th century while 19th century tastes created much of what we see today with conservatories arboretums Paxton s Emperor Fountain and the model village of Edensor The authors also survey the earlier history of Chatsworth the archaeology of the surrounding peaks the remains of the medieval village of Edensor which as was often the case with country estates was swept away only to be later resurrected according to Victorian taste and a number of fine ancient oaks which have seen it all and still stand today The book is illustrated throughout with many excellent colour photographs of the estate and old plans and paintings which demonstrate the many changes the centuries have brought Another excellent landscape study by Windgather Press

The Archaeology of a Great Estate Nicola Bannister, John Barnatt, 2009-08-25 The Peak District is a historic upland landscape with a rich palimpsest of features which invoke the many generations of people who have inhabited the area The great estate of Chatsworth reflects the Peak in microcosm Its landscapes are diverse and contain many exceptional features including archaeological earthworks of medieval open fields and later enclosures in the park and prehistoric stone circles barrows fields and settlements on the Estate moorlands This book tells the story of the historic landscape and its archaeology it is a companion volume to Chatsworth A Landscape History Barnatt Williamson but in contrast to that book includes the whole of the Estate landscape including the extensive farmland and moorlands beyond the park and concentrates on visible archaeology and what it can tell us about the past The result is a fascinating in depth portrait of one of the major estates in Britain

Hedgerow History Gerry Barnes, Tom Williamson, 2006 From the Scots pine rows of Breckland to the ancient earth and stone banks of the West Country hedgerows are an essential component of regional landscape character A working knowledge of hedges is an essential part of every landscape historian's toolkit yet we understand them less well than we do many other features in the landscape The authors ask why hedgerows vary across different parts of Britain and investigate the ecological economic and historical reasons for these variations Drawing upon a unique computerised analysis of hedges in Norfolk they explore how hedges came into existence and how they have changed over time They move beyond the myth that a hedge can be dated simply by counting species and develop instead a much more sophisticated account of hedgerow history They point out marked geographic variations in species content and diversity and explore the reasons for these differences Essential reading for all those interested in hedgerows and trees the new research presented in this book has implications for the practice of landscape history across the whole of Britain Book Jacket

Garden History,2007 Lancelot Brown and the Capability Men David Brown,Tom Williamson,2016-08-15 Lancelot Capability Brown is often thought of as the innovative genius who single handedly pioneered a new naturalistic style of landscape design but he was in fact only one of many landscape designers in Georgian England Published to commemorate the three hundredth anniversary of Brown's birth this book casts important new light on his world renowned work his eventful life and the wider and robust world of landscape design in Georgian England David Brown and Tom Williamson argue that Brown was one of the most successful designers of his time working in a style that was otherwise widespread and that it was his skill with this style and not his having invented it that linked his name to it The authors look closely at Brown's design business and the products he offered clients showing that his design packages helped define the era's aesthetic They compare Brown's business to those of similar designers such as the Adam brothers Thomas Chippendale and Josiah Wedgwood and they contextualize Brown's work within the wider contexts of domestic planning and the rise of neoclassicism Beautifully illustrated throughout this book celebrates the work of a master designer who was both a product and harbinger of the modern world
