*Influencers and the Influenced* Elan Moritz,2026-02-08 A Unified Theory of Influence From Ancient Persuaders to AI Futures Influence is everywhere in the parent teaching a child the advertiser crafting a message the algorithm curating a feed the state deploying propaganda Yet we lack a comprehensive framework for understanding influence across these domains This book provides one Influencers and the Influenced integrates memetic theory the study of cultural replicators with persuasion psychology and network science to explain how ideas beliefs and behaviors spread through populations The analysis spans from humanity s earliest influencers parents priests teachers through the contemporary landscape of social media creators to speculative futures involving artificial intelligence and post human cognition Key contributions A quantitative memetic framework treating cultural transmission as an evolutionary process with measurable dynamics Integration of classical persuasion science Cialdini Petty Cacioppo with contemporary digital influence phenomena Comprehensive analysis of the

influencer industry taxonomies competencies motivations and economic structures Examination of covert influence state sponsored operations intelligence activities and hidden manipulation Ethical frameworks for distinguishing legitimate persuasion from manipulation Forward looking analysis of AI generated content synthetic influencers and algorithmic personalization This is a scholarly work with extensive citations mathematical formalism where appropriate and a commitment to analytical rigor over polemic It is written for readers who want to understand influence deeply not to be told what to think but to be equipped to think clearly about the forces shaping human belief and behavior More than 500 pages including appendices on mathematical formalism glossary of terms and research methods

**Including the Audience in Integrated Marketing Communication and Branding: Social Media, Gaming, and Beyond** Elizabeth Crisp Crawford, Emory Daniel, Shu-Yueh Lee, 2026-03-05

Digital media has changed the consumer brand relationship Traditionally brands were created by professional marketers Now advertising is a collaborative effort that includes the audience Social media allows audience members to respond to promotional materials in real time and consumers can generate their own messages and memes regarding a variety of products services and issues of interest This democratization of advertising facilitates a communication environment that is both hyper personalized and multifaceted As organizations lose control of their brands the door has opened to a new polycentric communication environment that fosters influencer marketing and increases the importance of word of mouth communication in a variety of contexts Against this background the purpose of this Research Topic is to explore the wide range of perils and possibilities that this expanded frontier in communication provides with particular emphasis on the ways that audiences can participate in integrated marketing communications IMC Contributions to this Research Topic can explore how a polycentric and hyper personalized media environment affects audience member engagement and perceptions of brands and issues Articles can also explore the message strategies and communication tactics that audience members contribute to the IMC process In addition to dealing with social scientific topics contributions can investigate the ethical and legal issues related to audience participation in advertising to their own peers Although audience inclusion in IMC has some potential drawbacks it can also generate more meaningful consumer information Therefore a variety of perspectives on the topic of audience participation in IMC are welcomed As the goal of this article collection is to increase the scope of our knowledge of how audience members participate in the IMC and branding process and the influence of this increased participation on advertising and promotional efforts the scope of the Research Topic is wide The Topic Editors welcome articles that take a social scientific perspective as well as critical and cultural perspectives Audience participation can be studied in a variety of contexts including mobile digital and social media environments gaming virtual and augmented reality events and social gatherings or any other context where audiences might shape promotional communication and branding In addition to exploring how audience participation shapes IMC articles can also explore how increased audience participation in branding influences consumers Interdisciplinary contributions are
