Bad Place:

A Bad, Bad Place Frances Crawford, 2026-03-03 A gritty and poignant debut about a young working class girl in 1979 Glasgow who happens upon the body of a murdered woman and must face an insular community desperate for answers as well as herself Glasgow 1979 If it hadn't been for her wee stupid dog Sid Vicious twelve year old Janey Devine might never have stumbled upon the corpse of Samantha Watson And then maybe she'd still be able to sleep at night And maybe her nana wouldn't be so worried all the time And maybe Billy The Ghost Watson a notorious gangster wouldn't be on her tail for it's Billy's daughter who was left for dead on those train tracks and now Billy wants answers Fear and gossip have spread through the tight knit community of Possilpark and while Janey swears she can't remember the details of that morning the cops think she's hiding something and indeed there's something she knows that she's not quite ready to tell anyone not even her nana who won't rest until this whole thing is behind them Shot through with remarkable humor Frances Crawford's stunning debut is a coming of age whodunit an intimate portrait of a working class neighborhood that weaves Janey's innocent candor and her nana's hard earned wisdom into a sweeping tale of grief and survival that marks the arrival of a major new voice in crime fiction

The Dynamics of Powerful Parenting Raymond Messer, 2005 The Dynamics of Powerful Parenting is a book about power the power held by a parent to shape the development of a child and the power of a child to either accept or reject those efforts Often when things are not working well for parents with their children they will continue doing the same things yet with ever more vigor Usually the result will be more of the same only worse A secret to understanding the dynamics of many human behaviors lies in the paradox of the Chinese Finger Puzzle aka Chinese Handcuff The Chinese finger puzzle is a tube woven from bamboo shoots that is several inches long and about the diameter of a person's fingers true to its nature the tube will narrow as its ends are pulled Thus when the tube is slipped over the ends of fingers or thumbs on opposing hands the subject's efforts to pull his or her fingers apart are met with increasing resistance from the device So it is with much of being human The thing that people wish to avoid most is the very thing that results from their efforts to do so Dynamics is a book written with this paradox in mind It is a book of insights about parenting that turns upside down many of the things that are currently held dear in traditional parenting efforts It is a book that downplays the use of punishment but never overlooks the need for discipline and responsibility Dynamics encourages parents to think about what they are doing how they are doing it and what are they are experiencing as a result then provides useful tools for changing undesired outcomes It is a book that can produce positive results that will benefit generations yet unborn

Oil Field Engineering ..., 1921 *House Documents* United States House of Representatives, 1867 **The Kurdish Issue in Turkey** Zeynep Gambetti, Joost Jongerden, 2015-04-10 This volume gives a thorough and comprehensive analysis of the Kurdish issue in Turkey from a spatial perspective that takes into account geographical variations in identity formation exclusion and political mobilisation Although analysis of Turkey's Kurdish issue from a spatial perspective is not new spatial

analyses are still relatively scarce More often than not Kurdish studies consist of time centred work In this book the attention is shifted from outcome oriented analysis of transformation in time towards a spatial analysis The authors in this book discuss the spatial production of home identity work in short of being in the world The contributions are based on the tacit avowal that the Kurdish question in addition to being a question of group rights is also one of spatial relations By asking a different set of questions this book examines which spatial strategies have been employed to deal with Kurds Which spatial strategies are developed by Kurds to deal with state and with the neo liberal turn How are these strategies absorbed and what counter strategies are developed both in cities populated by the Kurds in south eastern Turkey and in other regions Emphasizing that identity or place its particularity or uniqueness arises from social practices and social relations this book is essential reading for scholars and researchers working in Kurdish and Turkish Studies Urban and Rural Studies and Politics more broadly
