going to waste their time with the things that most educated professionals know but it will help them with the things they don't know or are unsure of. It's not a Chicago Manual sized encyclopaedic reference that includes everything any writer would ever need to know because architects don't need to know everything. But what they do need to know and what they use every day in their professional lives has been assembled in this book.     **Business English and Correspondence** Roy Davis, Clarence Hart Lingham, 1921     *Composition Planning* John Baker Opdycke, 1913
