Badajoz 1812 Wellingtons Bloodiest Siege:

Badajoz 1812 Ian Fletcher, 2012-08-20 Badajoz 1812 analyses the storming of Badajoz which involved Wellington's infantry in some of the most savage hand to hand fighting of the whole Peninsular War At appalling cost in a nightmare assault during the night of the 6 April 1812 Wellington's soldiers hacked their way over the bodies of their dead and wounded and through the huge medieval walls of the town These were held with great tenacity skill and courage by a resolute French and German garrison Having stormed the town the battle crazed army went berserk and the horrors of the sacking which followed as much as the sublime courage of the attackers have passed into legend [Artillery of the Napoleonic Wars: A Concise Dictionary, 1792-1815](#) Kevin F. Kiley, 2021-03-15 A comprehensive military history reference book exploring all aspects of the artillery used during the Napoleonic Wars Napoleon began his military career as an artillery cadet and artillery played a fundamental part in all his great battles Until the Napoleonic Wars artillery had been seen merely as a supporting arm to the infantry but Napoleon changed everything He massed his guns in huge batteries to blast holes in his opponent's line He even used the artillery to charge the enemy the gunners galloping up to the enemy to open fire at pointblank range Napoleon's opponents did not all follow suit choosing other tactical deployments As a result the Napoleonic era more than any that preceded or followed it was one of fascinating artillery maneuvers and critical actions that changed the course of many of the key battles As the Prussian Field Marshal Blucher once observed Against Napoleon you needed guns and lots of them The Napoleonic Wars was also a time of innovation with the introduction of shrapnel shells and military rockets This book will examine the artillery arms of all sides from muzzle to butt plate As well as the significant artillerymen of the period the scientists and innovators military and civilian individuals such as Robins Belidor Gribeauval and his colleagues Maritz Liechtenstein and his collaborators as well as the du Teil brothers will all be examined as will the important battles and sieges significant memoirs and documents and artillery terms that soon became part of the military lexicon Written by the renowned historian Kevin F Kiley this will be the definitive book on the subject and will cover all aspects of artillery in the Napoleonic Wars This is a wonderfully complete induction into the details of Napoleonic Artillery As well as defining some of the archaic terms associated with the art of gunnery note point blank is not what we mostly believe it to be it provides background to the careers of the key characters in the science The book contains many excellent technical drawings to explain sketches and images to inform and data tables in the appendix to which to refer Overall it is an indispensable aid to understanding the artillery of the period Michael McCarthy battlefield guide **The Very Thing** Jonathan Crook, 2011-02-21 Drummer Richard Bentinck of the 23rd of Foot Royal Welch Fusiliers was a rarity he survived many sanguinary experiences and recorded his adventures His writings provide an evocative portrait of an ordinary soldier's perception of living with one of the most experienced Napoleonic infantry battalions He was discharged in 1823 for ill health but lived a full life dying in 1878 as an old man Jonathan Crook has meticulously researched his ancestor's life finding

unpublished first hand accounts from Bentinck of desperate conflict across the globe from Copenhagen to Martinique throughout the Peninsular Campaign and culminating at the battle of Waterloo These accounts are drawn from interviews that Bentinck conducted with a journalist just before his death The title of the book is taken from the Battle of Aldea de Ponte Wellington identified a tactical vulnerability and called for infantry to conduct an immediate manoeuvre On being informed that the 23rd of Foot was best disposed he smiled and said Ah the very thing demonstrative of his hard earned confidence
