

All about the new service rule in badminton

The badminton world is going to see a sea change with the new service rule being implemented from March 14 starting with the All England Championships.

The old rule meant the racquet should be held below the waist of a player while serving.

It has been made mandatory to keep the shuttle height constant at 1.15 metre from the surface of the court during service.

Old rule

The racquet should be held below the waist of a player during serving. This will vary according to the height of the player.

New rule

It has been made mandatory to keep the shuttle height constant at 1.15m from the surface of the court during service. The change makes it tough for tall players such as world No. 1 Viktor Axelsen.

Problem area

The tall players have raised the concern that they will have to stay low while serving and then immediately switch to a straight position which hands their rivals a big advantage.
