Life of the Sailor Chester Litvin, 2010-06 We are emigrants and having the mind of sailors we want to connect We are discovering and unifying all parts of our psyche and are having genuine dialogs and real meetings In the past we were forced to become part of a collective where the ideologists were acting as crooked preachers to lure the naive The ideologists were enlisting us to live a life of monks In return they were promising happiness and a heaven on earth Opposite to radical collective instead of creating the rigid structure of compliance and ignoring our subconscious feelings sailors decided to enjoy flexible interactions between all parts of the psyche To be happy we are altering connections between our fragments The plasticity of self is a big advantage It is including the cooperation of consciousness and sub consciousness We do not suppress our thoughts and feelings and are treating them with respect We are not rejecting any subconscious messages however unlike they are Only when our fragments are respecting each other does the genuine dialog exist and our identity is solid and does not fall apart under the stress *Life of the Sailor* examines the psyche of the collective and asks the question how do we remain true to ourselves

A Summer of Adventure Jacqueline White Unruh, 2015-04-25 Teenage Toby lived with his grandmother When she died suddenly arrangements were made for him to spend the summer in Dallas Texas with his only living relative his uncle Mike While waiting at the bus terminal he noticed two kids trying to hide from a dirty unkempt man who smelled of booze When the man was out of sight Toby asked the teenage girl and her younger brother why the man was looking for them The girl Cindy hesitantly explained that he was their step father he beat their mother who was now in the hospital and he said he would kill them for calling 911 and turning him in They were clearly scared and Toby wanted to help if he could Toby convinced Cindy and her brother Tommy to come with him to Dallas where he was sure Uncle Mike would know what to do There was a long wait before their bus departure time so the three kids ran back to Cindy and Tommy's house where they quickly packed some clothes and found what money they could Back at the bus terminal they purchased one way tickets to Dallas and their Summer of Adventure began

Search for Holographic Mind Chester Litvin PhD, 2019-11-13 A psychologist explores the human psyche's tendency toward fragmentation and a plan to restore a healthy self In this debut book Litvin argues that the human psyche tends often as a response to trauma to shatter into disjointed parts This can be a normal and even salutary psychological mechanism especially when employed to defensively sequester the mind from overwhelming pain But the mind can overreact to distress leading to a self so addled with internal fissures that unhappiness anxiety confusion and a deficit of self esteem can ensue Fortunately the author contends the splintering of one's self can be remedied by establishing a

dialogue between the parts hence producing a congruence that results in the harmony of a Utopian collective The solid identity is a unique structure of the psyche where the fragments are aligned together in common goals and attitude In order to illustrate his chief points Litvin concocts a fictional case study that chronicles the life of soldier Stepan Kryvoruchko who fled the authoritarian ideology of the Soviet Union and suffered from a shattered identity as a consequence The author vividly personifies the scattered shards of Stepan s mind and the process whereby he heals destructive splitting through a reconstructive unification Litvin compellingly assesses the political dimension of his theory and the virus of radicalization that can infect both individuals as well as body politics Author also includes helpful literary analogies drawing a connection between critique of totalitarian collectivism and Dostoyevsky s novelistic dissection of the issue This volume also expands upon the author s idea of sailing as a metaphor for introspective search and provides a broader account of the nature of individual equilibrium these concrete illustrations are of great instructional value
