**Martial Arts as Embodied Knowledge** D. S. Farrer, John Whalen-Bridge, 2011-12-01 This landmark work provides a wide ranging scholarly consideration of the traditional Asian martial arts Most of the contributors to the volume are practitioners of the martial arts and all are keenly aware that these traditions now exist in a transnational context The book s cutting edge research includes ethnography and approaches from film literature performance and theater studies Three central aspects emerge from this book martial arts as embodied fantasy as a culturally embedded form of self cultivation and as a continuous process of identity formation Contributors explore several popular and highbrow cultural considerations including the career of Bruce Lee Chinese wuxia films and Don DeLillo s novel *Running Dog* Ethnographies explored describe how the social body trains in martial arts and how martial arts are constructed in transnational training Ultimately this academic study of martial arts offers a focal point for new understandings of cultural and social beliefs and of practice and agency

*Buddha Nature and Animality*, 2007 Buddha Nature and Animality is about peaceful living In discussions about the relation between humans and their animal relatives a central theme is that Buddhism represents the most viable philosophical religious alternative to the malaise surrounding us when we confront ecological problems This recognition points to the notion of compassion Karuna is given expression as an alternative to stewardship since stewardship too falls into the dualistic trap of privileging the human Authors seek beyond the limits imposed by discourses of ethics and assume a more radical approach to seek the roots of the perspectives that allow the conceptual space for the problematic dialogues in the first place Rather than viewing animals as distinct beings sharing our environs authors attempt to give the animal soul back to spirituality They argue for the naturally enlightened spontaneity arising in animal nature and that animal nature is Buddha nature This animal buddha nature is fundamental to understanding Buddhism as a 21st century philosophy for living and dying
