encountering Bakunin's thought for the first time      **Bakunin: Statism and Anarchy** Karl Marx, 1900      **Hegel's Century**  
Jon Stewart, 2021-10-28 The remarkable lectures that Hegel gave in Berlin in the 1820s generated an exciting intellectual atmosphere which lasted for decades. From the 1830s many students flocked to Berlin to study with people who had studied with Hegel and both his original students such as Feuerbach and Bauer and later arrivals including Kierkegaard, Engels, Bakunin and Marx evolved into leading nineteenth century thinkers. Jon Stewart's panoramic study of Hegel's deep influence upon the nineteenth century in turn reveals what that century contributed to the wider history of philosophy. It shows how Hegel's notions of alienation and recognition became the central motifs for the era's thinking, how these concepts spilled over into other fields like religion, politics, literature and drama, and how they created a cultural phenomenon so rich and pervasive that it can truly be called Hegel's century. This book is required reading for historians of ideas as well as of philosophy.

Infrastructural Brutalism Michael Truscello, 2020-09-01 How drowned town literature, road movies, energy landscape photography and death train narratives represent the brutality of industrial infrastructures. In this book Michael Truscello looks at the industrial infrastructure not as an invisible system of connectivity and mobility that keeps capitalism humming in the background, but as a manufactured miasma of despair, toxicity and death. Truscello terms this infrastructural brutality a formulation that not only alludes to the historical nexus of infrastructure and the concrete aesthetic of Brutalist architecture, but also describes the ecological, political and psychological brutality of industrial infrastructures. Truscello explores the necropolitics of infrastructure, how infrastructure determines who may live and who must die through the lens of artistic media. He examines the white settler nostalgia of drowned town fiction written after the Tennessee Valley Authority flooded rural areas for hydroelectric projects, argues that the road movie represents a struggle with liberal governmentality, considers the ruins of oil capitalism as seen in photographic landscapes of postindustrial waste, and offers an account of death train narratives ranging from the history of the Holocaust to postapocalyptic fiction. Finally, he calls for brisantic politics, a culture of unmaking that is capable of slowing the advance of capitalist suicide. Brisance refers to the shattering effect of an explosive, but Truscello uses the term to signal a variety of practices for defeating infrastructural power. Brisantic politics, he warns, would require a reorientation of radical politics toward infrastructure sabotage and cascading destruction in an interconnected world.

**The Philosopher Li Zehou** Jana S. Rošker, Roger T. Ames, 2025-05-01 Deepens our understanding of this contemporary Chinese thinker's philosophy and its significance. Li Zehou (1930-2021) was one of China's most prominent contemporary philosophers, transforming Confucian philosophy into a resource for positive change. From a critical rereading of the Analects to a formulation of his own aesthetic theory, Li reinterpreted the tradition from earliest times down to the present day. In this effort, he was inspired by Marx and Kant but was neither a Marxist nor a Kantian. Nor was he a Confucian. He was and remains an original, the philosopher Li Zehou. In this volume, Chinese, European and US scholars explore Li's contributions to Chinese philosophy and culture, deepening our understanding of his philosophy and its

significance while also celebrating the intellectual diversity and richness of Chinese philosophical thought In a passionate and dedicated endeavor to ensure that Li s philosophy endures and continues to inspire scholars particularly the younger generation of academics both in China and around the world the volume aims to serve as a catalyst for ongoing scholarship and discourse on the work of the philosopher Li Zehou **The Anarchist Tradition and Other Essays** Max Nomad,1967

*Nation Games* Benjamin Zachariah,2020-08-10 This volume examines the tension between the nation idea as a necessary language of legitimacy with which to claim liberation and its role in disciplining people and their identities in India in the name of national liberation It is an attempt to open up new lines of thinking and ways of reading Indian history **A**

**Philosophy of Concrete Life** Mika Ojakangas,2004 Carl Schmitt is one of the most influential political and legal theorists of the 20th century His ideas have long been familiar to intellectuals in Europe Despite growing interest in Schmitt the analysis of the metaphysical structure and logic of Schmitt s political thought is still missing This book tries to redress this flaw It focuses on Schmitt s conception of the concrete which is seen as the metaphysical core of his writings For Schmitt the concrete is a condition of possibility of any order Rather than a concept it is a name for a borderline or a passage between a concept and life between a mediating idea and an immediate existence In addition to the structure and logic of Schmitt s thought the book is a short presentation of all central themes in Schmitt s writings from *Political Theology* 1922 to *The Nomos of the Earth* 1950 **After the Last Post** Benjamin Zachariah,2019-07-22 This book is about the production and

consumption of history themes that have gained in importance since the discipline s attempts to disavow its own authority with the ascendancy of postmodern and postcolonial perspectives Several parallel themes crosscut the book s central focus on the discipline of history its intellectual history its historiography and its connection to memory particularly in relation to the need to establish the collective identity of nation community or state through a memorialisation process that has much to do with history or at least with claiming a historicity for collective memory None of this can be undertaken without an understanding of the roles that history writing and history reading have been made to perform in public debates or perhaps more accurately in public disputes The book addresses a discomfort with postcolonial theories in and as history Following are essays that examine the state of the discipline the art of reading and using archives practices of tracking the history of ideas and the themes of history memory and identity

**The Anarchist Papers 3** Dimitrios I. Roussopoulos,1990 This volume includes essays on the French Revolution dissidence in East Germany and Poland a critique of science a debate between science and religion and the conflict between neoconservatism and social ecology and a contemporary analysis of power

**Seeking Identity** Raymond A. Belliotti, 1995 Outlining the unwritten but deeply ingrained system of moral codes that Italian immigrants brought to America Belliotti examines that system in relation to moral theorists who argue we owe the most to people close to us and those who contend we must attach no special weight to our own interests when determining proper moral action He also investigates philosophical historical sociological and political aspects of government authority examines conflicting images of Italian immigrant women and analyzes war and pacifism *Karl Marx's Theory of Revolution: Critique of other socialisms* Hal Draper, 1977 **Black Flame** Lucien Van der Walt, Michael Schmidt, 2009 Part one of a two part history of the non Marxist libertarian form of socialism aka anarchism From its origins in the 18th century and the conflicts with Marx in the First International to insurrections trade unions and specific anarchist organisations the hidden history of an alternative tradition is revealed The ideas about socialism so prevalent today that it equates with state ownership that is the prerogative of the Party that it has somehow failed are all dismantled in this scholarly engagement with a complex ideology **Our Generation**, 1989 **STATISM AND ANARCHY** Mikhail Bakunin, Statisme dan Anarki merupakan satu satunya karya besar Bakunin dari periode anarkis yang ditulisnya di Rusia bukan di Perancis Disusun pada musim panas 1873 Mikhail Alexandrovich Bakunin adalah anarkis revolusioner Rusia dan pendiri anarkisme kolektif Dia dianggap sebagai tokoh anarkisme yang paling berpengaruh dan pendiri utama tradisi anarkis sosial Wibawa besar Bakunin sebagai aktivis menjadikan dirinya salah satu ideolog yang paling terkenal di Eropa Dia sangat berpengaruh di kalangan kaum radikal di seluruh Rusia dan Eropa
