Balfours Burden Arthur Balfour Imperia:

The Golden Talking-Shop Edward Pearce,2016-10-19 In the late 1890s Britain was basking in the high noon of empire albeit with the sobering experience of the Boer War just around the corner By 1956 the year of the Suez debacle and less than a lifetime later the age of empire was drawing rapidly to a close and Britain s position as an independent great power was over In between the country had experienced two devastating world wars India the jewel in her imperial crown had gained independence And there had been far reaching changes on the domestic front the birth of the welfare state full men s and eventually women s suffrage and the foundation of the National Health Service to name but a few Throughout this momentous period the Oxford Union the world s most famous debating society continued to meet to debate and discuss the changing world around them Sometimes their debates had important repercussions in the wider world such as the notorious King and Country debate of 1933 which made headlines around the globe and which Winston Churchill described as that abject squalid shameless avowal More often than not the debates had merely a local impact even if among the debaters were many of the leaders thinkers and opinion formers of the future figures such as Harold Macmillan Archbishop Temple Edward Heath and Tony Benn In *The Golden Talking Shop* former Parliamentary sketch writer and Union member Edward Pearce tells the story of Britain and the world in the first half of the twentieth century as seen from the perspective of these Union debates sometimes shocking sometimes wittily amusing and often both The students do most of the talking along the way revealing the changing preoccupations prejudices and assumptions of their changing times A distinct pre First World War fashion for Social Darwinism is in due course replaced by a widespread 1930s penchant for Stalinism with civilized opinion reliably breaking in on occasion too Above all browsing these debates taken straight from another age gives the reader a vivid sometimes piquant sense of a Britain which is now passing from living memory and serves as a powerful reminder of the ways in which the past and its attitudes really are a foreign country
