## **Baltics Russia Through The Back Door:**

The Baltic States Thomas Lane, Artis Pabriks, Aldis Purs, David J. Smith, 2013-11-05 Since the end of the Cold War there has been an increased interest in the Baltics The Baltic States brings together three titles Estonia Latvia and Lithuania to provide a comprehensive and analytical guide integrating history political science economic development and contemporary events into one account Since gaining their independence each country has developed at its own pace with its own agenda and facing its own obstacles The authors examine the tensions accompanying a post communist return to Europe after the long years of separation and how each country has responded to the demands of becoming a modern European state Estonia was the first of the former Soviet republics to enter membership negotiations with the European Union in 1988 and is a potential candidate for the next round of EU expansion in 2004 Lithuania and Latvia have also expressed their desire for future membership of NATO and the EU

**Estonia** David James Smith, 2001 In 1998 Estonia became the first of the former Soviet republics to enter membership negotiations with the EU This book traces the remarkable reforms that have propelled Estonia from the USSR to the threshold of the EU in less than a decade

**Estonia** David Smith, 2013-12-16 In 1998 Estonia became the first of the former Soviet republics to enter membership negotiations with the European Union Since then it has been hailed as the model pupil amongst the current applicants This study traces the remarkable reforms that have propelled Estonia from the USSR to the threshold of the EU in less than a decade The work also explores the tensions inherent in the concept of a postcommunist return to Europe Since 1991 membership of western transnational organizations has been consistently portrayed as the best guarantee of Estonia's independence Yet the membership criteria imposed by these organizations have frequently conflicted with the nationalist priority of restoring a sovereign Estonian nation state At the same time Estonia's geopolitically sensitive location poses a dilemma for the West thereby ensuring that the country will remain the litmus test not just of Russia's intentions towards Europe but of the New Europe as a whole

The Baltic States Mary Evelyn Townsend, 1921

**Russia's Foreign Relations During the Last Half Century** Sergyei Aleksandrovich Korff, 1922

**The Red Cross Bulletin**, 1920 *Tracing Your Baltic, Scandinavian, Eastern European, & Middle Eastern Ancestry Online* Anne Hart, 2005-06-06 Are you online and ready for global smart card and database genealogy for virtual travelers Here's how to search family history for nations bordering the Baltic Sea the Balkans countries Scandinavia Eastern Europe and the Middle East The nations listed in this guide all faiths include Finland Sweden Norway Denmark Iceland Estonia Latvia Lithuania Poland Armenia Assyria Greece Lebanon Syria and many other lands in the Middle East the Balkans Croatia Macedonia Bulgaria Eastern Europe Hungary and more Collecting details about people is moving toward smart card technology and its offspring The new wave in genealogy is authentication technology Authentication begins with new wave technology used to gather population registers Compare the new technology to the old method of door to door census taking tombstone tracings and city directory publishing No genealogists are not using smart cards this year but smart card

technology is being used to compile population registers in Europe The future holds a new wave of technology used for authentication for banking transactions being applied to other areas Currently this technology is used for collecting details for population registrars such as census taking The application for research is of interest to family historians librarians and governments It s already in use by private industry for electronic authentication Family history is now about intelligent connections whether it s a population registrar census detail or electronic identity for banking Smart card genealogy began in 1998 in Finland with governments seeking to put census and population registers in an electronic form that would be available to researchers and these applications are going global
