Bangladesh Politics The Shahabuddin Interregnum:

Bangladesh Politics Muhammad A. Hakim, 1993 **Electoral Corruption in Bangladesh** Muhammad Akhter, 2017-11-30 This title was first published in 2001 Rigging elections in favour of those in power has become a common practice in Bangladesh Muhammad Yeahia Akhter focuses on the significance of elections in this ostensibly democratic state and portrays how electoral corruption has damaged the process of democratic consolidation The author reveals the failure of both civilian and military governments to obtain democratic legitimacy and or credibility through free and fair elections The study examines the relatively democratic but largely non transparent nature of electioneering under non partisan caretaker governments The study provides a source of understanding of fair electoral process for the politicians and electoral officials in Bangladesh and other democratizing polities It provides valuable information to the policy makers and practitioners in order to reform the electoral process in Bangladesh and in other similar countries The Politics and Law of Democratic Transition Sonia Zaman Khan, 2017-10-25 Peaceful legal and political changing of the guards is taken for granted in developed democracies but is not evident everywhere As a relatively new democracy marred by long periods of military rule Bangladesh has been encountering serious problems because of a prevailing culture of mistrust weak governance institutions constant election manipulation and a peculiar socio political history which between 1990 and 2011 led to a unique form of transitional remedy in the form of an unelected neutral caretaker government CTG during electoral transitions This book provides a contextual analysis of the CTG mechanism including its inception operation manipulation by the government of the day and abrupt demise It queries whether this constitutional provision even if presently abolished after overseeing four acceptable general elections actually remains a crucial tool to safeguard free and fair elections in Bangladesh Given the backdrop of the culture of mistrust the author examines whether holding national elections without a CTG or an umpire of some kind can settle the issue of credibility of a given government The book portrays that even the management of elections is a matter of applying pluralist approaches Considering the historical legacy and contemporary political trajectory of Bangladesh the cause of deep rooted mistrust is examined to better understand the rationale for the requirement emergence and workings of the CTG structure The book unveils that it is not only the lack of nation building measures and governments wish to remain in power at any cost which lay behind the problems that Bangladesh faces today Part of the problem is also the flawed logic of nation building on the foundation of Western democratic norms which may be unsuitable in a South Asian cultural environment Although democratic transitions on the crutch of the CTG have been useful in moments of crisis its abolition creates the need for a new or revised transitional modality perhaps akin to the CTG ethos to oversee electoral governance which will have to be renegotiated by the polity based on the people s will The book provides a valuable resource for researchers and academics working in the area of constitutional law democratic transition legal pluralism and election law **The Constitutional Law of Bangladesh** M Rafiqul Islam, Muhammad Ekramul Haque, 2023-07-25 This book

provides a supportive lending hand to researchers of constitutional law worldwide about the constitutional law of Bangladesh. Moreover, this book discusses the evolution and development of the constitutional law of Bangladesh over 50 years from its embryonic stage with reference to comparative constitutional law. This book is a very useful resource for the comparative constitutional researchers as readers will be able to easily interpret the constitutional law of Bangladesh from national, regional, and global constitutional law perspectives. This book celebrates the fiftieth anniversary of the Constitution, the first of its kind to portray the journey of constitutionalism in Bangladesh comprehensively with intellectual observations and palatable recommendations for improvement. This book looks back to the constituent assembly debates, intention of the constitution makers, and how those dreams and aspirations have come into realities, what goals have been achieved, what caused some failures, and what should be its future directions. At such a momentous point in history, it is imperative that its native and foreign constitutional authoritative voices scholarly assess the constitutional design, understand the reasons for its successes and occasional failures, and ventilate their views towards its progressive development to elevate it to a new height in the 21st century and beyond. The book chapters discuss not only the text of the constitution and some judicial precedents, rather involve in a much larger task of unveiling the interpretative approach of the Constitution from a comparative constitutional law perspective. This book shall project the future roadmap for the journey of constitutionalism in Bangladesh throughout all chapters, offering policy recommendations for the revision of the Constitution.

Unstable

Handbook Dieter Nohlen, Florian Grotz, Christof Hartmann, 2001-11-15. This two-volume work continues the series of election data handbooks published by OUP. It presents a first-ever compendium of electoral data for all the 62 states in Asia, Australia, and Oceania from their independence to the present. Following the overall structure of the series, an initial comparative introduction on elections and electoral systems is followed by chapters on each state in the region. Written by knowledgeable and renowned scholars, the contributions examine the evolution of institutional and electoral arrangements and provide systematic surveys of the up-to-date electoral provisions and their historical development. Exhaustive statistics on national elections and referendums are given in each chapter. Together with the other books of this series, *Elections in Asia and the Pacific* is a highly reliable resource for historical and cross-national comparisons of elections and electoral systems worldwide.
