Banking On Knowledge The Genesis Of The Global Development Network:

Banking on Knowledge Diane Stone,2003-09-02 This book is one of the first studies of how the World Bank is reinventing itself as the knowledge bank

Global Knowledge Networks and International Development Simon Maxwell,Dr Diane L Stone,2004-08-02 This volume draws together leading experts from academia think tanks and donor agencies to examine the impact of transnational knowledge networks in the formulation of local national and global policy in the field of international development and transition studies These leading contributors pay particular attention to the global reach of research and the manner in which knowledge is incorporated into and shapes transnational policy domains They show how the knowledge agenda has become a central part of the discourse of both developing societies and advanced economies Governments and international organizations devote considerable financial resources to both in house and contracted research This volume will be of great interest to students researchers and policy makers concerned with global policy global governance and development

The World Bank and Governance Diane L. Stone,Christopher Wright,2006-09-27 This timely book offers the first critical examination of World Bank policy reforms and initiatives during the past decade The World Bank is viewed as one of the most powerful international organizations of our time The authors critically analyze the influence of the institution s policy and engagement during the past decade in a variety of issue areas including human rights domestic reform and the environment The World Bank and Governance delves into the bowels of the World Bank exploring its organizational structure professional culture and bureaucratic procedures illustrating how these shape its engagement with an increasingly complex diverse and challenging operational environment The book includes chapters on two under researched divisions of the World Bank the International Finance Corporation and the Multilateral Investment Guarantee Agency Several illuminating country studies are also included analyzing the World Bank s activities in Argentina Bolivia Lebanon Hungary and Vietnam This volume will be of great interest to students and scholars of international relations development politics and economics

Knowledge Actors and Transnational Governance D. Stone,2013-08-29 Diane Stone addresses the network alliances or partnerships of international organisations with knowledge organisations and networks Moving beyond more common studies of industrial public private partnerships she addresses how and why international organisations and global policy actors need to incorporate ideas expertise and scientific opinion into their global programmes Rather than assuming that the encouragement for evidence informed policy in global and regional institutions of governance is an indisputable public good she queries the influence of expert actors in the growing number of part private or semi public policy networks

Sharing Knowledge Catherine Gwin,2003 This review examines the effectiveness of the World Bank s strategy to facilitate the sharing of development knowledge and information with client countries as well as the institutional infrastructure put in place to implement it including resources governance and technology Findings include that the Bank has made good progress in establishing the tools and activities to support its

initiative but it has not established adequate business processes and management responsibilities The review recommends that the Bank take three sets of actions regarding the need for greater strategic direction and oversight of the Bank's knowledge processes linking knowledge sharing activities to lending and non lending processes and setting outcome objectives and supporting programme performance indicators in accordance with agreed monitoring and evaluation procedures

Reshaping Globalization Violetta Zentai, Andrea Krizsán, 2003 If the importance of globalization were judged by the volume of discussion it has generated it would surely be a concept of fundamental importance in the contemporary world And yet as a concept globalization is often indigestible meaning different things to different people and remaining obscure in its connotations A virtue of this volume of essays is that the phenomena of globalization are made more approachable by being divided into five discrete themes each of which forms part of the overall concept and each of which has important implications for policy decisions at the international regional and national levels By differentiating the concept in this way into the production of global knowledge the provision of global public goods the global trade system global foreign aid and global governance the analysis is sharpened in an illuminating and stimulating manner At the same time the editors Drs Violetta Zentai and Andrea Krizsan provide a masterly introductory essay that shows how the various parts make up the whole The fact that the book is a product of an international conference held at the Central European University shortly after September 11 in 2001 adds a layer to its significance The Center for Policy Studies at the Central European University and its collaborators deserve praise for such a thorough and timely analysis of these various strands of globalization Book jacket

Comparative Think Tanks, Politics and Public Policy James G. McGann, Erik C. Johnson, 2005 Independent institutes conducting policy research analysis and public dialogue or think tanks as they are more commonly known are one of the leading catalysts for ideas and action in civil societies around the world This study provides a map of such organizations and the social political legal and economic conditions that shape their work

Cultural Attitudes Towards Technology and Communication 2004 Fay Sudweeks, Charles Ess, 2004

Knowledge, Power and Development Agendas Emma Mawdsley, 2002 Knowledge Power and Development Agendas explores how southern NGOs can have more of a voice in determining the work they actually do and how they can get more of their ideas on to the international development agenda It reports recommendations for overcoming challenging or bypassing information loops on funding ideas and networks

Cultural Attitudes Towards Technology and Communication 2002 Fay Sudweeks, Charles Ess, 2002

Globalising Democracy Peter J. Burnell, 2006 Explores the intersection of two major themes globalization and the contribution that both domestic party politics and international party support make to democratization This volume shows what globalization means for domestic and international efforts to build effective political parties and competitive party systems in emerging democracies

South-South Cooperation in Education and Development Linda Chisholm, Gita

Steiner-Khamsi,2009 *Working Paper*,2001 Knowledge Economy, Development and the Future of Higher Education

Michael A. Peters,2007 This book reflects on the post war Western university and its discourses charting the crisis of the concept of the modern university

Multilateral Institutions Morten Boas,Desmond McNeill,2003-02-20 In recent years a great deal of public attention has been focussed on multilateral institutions such as the World Bank IMF and WTO This book offers students practitioners and activists a critical guide to these and other major institutions the Regional Development Banks and UNDP that make up the multilateral development system It analyses how they operate with respect to financing and lending the various roles that they play and related changes in their policy concerns such as structural adjustment sustainable development and governance The emphasis is on politics within and also between multilateral institutions analysing the relations both competitive and collaborative between for example the World Bank and UNDP NGOs are also shown to be important actors and the role they have played in recent years is critically assessed The book concludes with some emerging trends the privatisation of the system regionalisation and the politics of protest B s and McNeill do not simply take the policies of multilateral institutions at face value but ask how and why these policies came into existence They seek to promote critical but informed engagement both with the member states of multilateral institutions and the institutions themselves

Thinking the Unthinkable Branka Andjelković,2003 The challenges of constructing effective governance systems in Central and South Eastern Europe during the past decade have been extensive This publication looks at the linkages between these challenges and the experiences and best practices that have emerged as well as the contributions of think tanks to government capacity It is divided into three sections The first part reviews a number of tools that can be used to stimulate a more institutionalized strategic thinking process in governments using both the available capacities inside government structures and the inputs by civil society organizations The second part reflects on the strengths and weaknesses of civil society organizations and think tanks as providers of inputs to policy makers In its third and final part the publication includes a case study of the application of Early Warning System as a specific tool to bring together government and civil society capacities in the context of South Eastern Europe

Global Networks R. J. Holton,2008 Global network research is an exciting new area of social analysis This book is the first to provide a thorough investigation of global network links across time and space Robert Holton demonstrates the way in which technological and interpersonal networks organise global society providing vivid examples from the present and the past This text gives practical advice on how to research global networks and brings together leading theory and new evidence on the subject for all students learning about globalisation and contemporary social change

Globalization Robert Goehlert,2003

Think Tank Traditions Diane Stone,Andrew Denham,2004 As think tank numbers explode they have become an integral part of political life Political leaders corporations and non governmental organisations draw upon their expert advice to advance their causes in the battle of ideas
