Banking In Transition East Germany After Unification:

Banking in Transition Gregg S. Robins,2000 **Banking in Transition** G. Robins,2000-02-17 The book asks whether transplanting banks can solve the problems involved in creating a well functioning market economy from outside looking especially at the virtually complete takeover of East German banks by their Western counterparts after unification Drawing on a wide range of English and German sources and fieldwork interviews across Germany it argues that there are no quick fix solutions to transition to a market Implications are discussed for East Germany and for other previously centrally planned economies and the global implications of foreign ownership in banking are considered Banking in a Transition Economy Gregg S. Robins,1995 **Divergent Paths in Post-Communist Transformation** O. Havrylyshyn,2006-02-20 The most comprehensive and up to date analysis of the successes and failures of 27 countries post communism transformation Looking at life after the fall of the Berlin wall in 1989 the book examines and contrasts why some countries have virtually completed their transformation to a liberal polity and economy while others lag behind Privatization, Corporate Governance and the Emergence of Markets E. Rosenbaum,F. Bönker,H. Wagener,2000-03-23 The volume focuses on privatisation in transition countries addressing issues ranging from corporate governance to the relationship between privatisation and the emergence of markets from a multi disciplinary perspective The contributors investigate both the theoretical groundwork of privatisation and enterprise restructuring as well as recent empirical evidence The contributions show that changes in ownership titles are but one part of the story being closely interwoven as they are with the transformation of corporate governance enterprise restructuring network transformation and the emergence of markets **The Transformation of State Socialism** D. Kolodko, Milica Uvalic, 2007-08-10 More than fifteen years after the fall of the Berlin Wall many issues regarding the transition from a centrally planned economy to a market economy are still being debated This book presents an evaluation of the transition in Central Eastern Europe and focuses on the socialist legacy the transition from planned to market economy and the future of the post transition phase *Serbia's Transition* Milica Uvalic, 2010-05-26 The book provides a comprehensive evaluation of the achievements and failures of the transition to a market economy in Serbia and explains why the process has been more complex than in other parts of the former communist world and in many ways unique Milica Uvalic analyses 20 years of economic transition in Serbia Starting from Serbia's favorable initial conditions in 1989 while still part of Yugoslavia it proceeds to discuss the difficult 1990s characterized by high political and economic instability international isolation due to wars and sanctions and lack of fundamental economic reforms The post 2001 achievements and failures of the radically new course in transition taken after the end of the Milosevic regime are evaluated in great detail including macroeconomic performance institutional reforms integration with the European Union and the impact of the 2008-09 global economic crises Publisher **Transition**, 2000 *Industrial Competitiveness and Restructuring in Enlarged Europe* Iraj Hashi, Paul J. Welfens, Anna Wziatek-Kubiak, 2007-10-17 This book is about changes in the competitiveness and

the restructuring of manufacturing industries in the three leading transition economies of Central Europe Poland Hungary and the Czech Republic their integration into the European Union and their catching up with the old member states in the pre accession period *Russia's Development Problem* Hans van Zon,2008-10-31 This book argues that Russia has struggled under autocratic power and that this continues to affect economic development today A cult of power has underpinned legal nihilism distrust secrecy and aversion to transparency and accountability Informal institutions are more important than formal institutions and influence macroeconomic development Property and power are merged while property rights are weakly developed Russia does not only face market failure but also hierarchy and network failure A system of values and social practices with deep historic roots constitutes perhaps the most formidable obstacle to social and economic development By exploring the operating mechanisms of the Russian economy in a comparative perspective and with fascinating insights into how Russian path dependence continues to exert an influence on modern day Russia and limit its development this book is essential reading for all those interested in the Russian economy and modern Russian history BOOK JACKET Bibliographie Internationale de Science Politique ,2000 Choice ,1999
