Bahai And Globalisation:

Baha'i and Globalisation Annika Hvithamar, Margit Warburg, Morten Warmind, 2005-12-01 Globalisation has become a buzzword that typically refers to the intensifying integration of the world economy especially as midwifed by technological advances It also implies a growing political and cultural sense that all humanity is globally interdependent There have always been individuals of course who have advocated such awareness one of them being the founder of the Baha i faith who formulated a spiritual equivalent as the religion s central doctrine in the late 19th century Ye are the fruits of one tree and the leaves of one branch Its emphasis on global unification made Baha i an obvious candidate for a case study on new religions and globalisation The chapters in this volume fall into two sections diachronic and synchronic The first part is organised chronologically beginning with the emergence of the globalist tendency in the messianic vision of Babism the precursor to Baha i and concluding with an analytic history of its leaders changing attitudes to international politics The second part considers a variety of global themes in contemporary Baha i practice including global thought in Baha i writings the impact of the internet and the triumphalist and secular strains in Baha i identity Though five million members make it one of the world s most successful new religions Baha i has attracted little scholarly attention Most of the academics concentrating on Baha i have contributed to this volume which will appeal not only to students of modern religious movements but to anyone interested in the ways religions can adapt to and embrace the modern world

Citizens of the World Margit Warburg, 2018-08-14 Citizens of the World deals with the Baha is and their religion While covering the historical development in sufficient detail to serve as a general monograph on Baha i emphasis is laid on examining contemporary Baha i with the Danish Baha i community as a recurrent case The book discusses Baha i religious texts rituals economy everyday life demographic development mission strategies leadership and international activism in analyses based on primary material such as interview studies among the Baha is fieldwork data from the Baha i World Centre in Israel and field trips around the world The approach is a combination of history of religions and sociology of religion within a theoretical framework of religion and globalisation Several general topics in the study of new religions are covered The book contributes to the theoretical study of globalisation by proposing a new model for analysing globalisation and transnational religions

Encyclopedia of Global Studies Helmut K. Anheier, Mark Juergensmeyer, 2012-03-09 With all entries followed by cross references and further reading lists this current resource is ideal for high school and college students looking for connecting ideas and additional sources on them The work brings together the many facets of global studies into a solid reference tool and will help those developing and articulating an ideological perspective Library Journal The Encyclopedia of Global Studies is the reference work for the emerging field of global studies It covers both transnational topics and intellectual approaches to the study of global themes including the globalization of economies and technologies the diaspora of cultures and dispersion of peoples the transnational aspects of social and political change the global impact of environmental

Geertz,Margit Warburg,Dorthe Refslund Christensen,2008 Globalization is a predominant theme in contemporary educational and political circles Research on globalization has become a political priority because the world has become a single place where local events may have worldwide political economic and military consequences Oftentimes however cultural and religious consequences are ignored although recent waves of violence seem to be religiously fuelled Church and State Sen McGlinn,2005 This is a political theology for the Baha i Faith but it is also a philosophy for living in our globalized post modern society The author investigates the Baha i teachings concerning the separation of Church and State Government religion commerce art education and science are increasingly independent have different social functions relate differently to one another and have different meanings for us today This functional differentiation also drives the pluralism relativism and global scope of our post modern society In a society such as ours in which religious ritual is the mirror of individual distinctiveness not of collective identity in which permanent pluralism means that no one religion can provide common norms and values and in which the values of one sphere of life are not transferred to other spheres religion must find a new role in society The twentieth century has taught us that economic affairs cannot be governed by political ideologies that science must be free of doctrine that the dignity and autonomy of the individual must be respected and that church and state must be separated This is an exhaustive review of Baha i literature on the subject but the book also inquires into the scriptures of both Christianity and Islam to find that the separations of state from religion is a universal ideal Publisher s website *International Conference and Gobalisation and Challenges for Education* ,2003 Contributed articles **Understanding the Baha'í Faith**

Margit Warburg, 2006 *Citizens of the World deals with the Baha'is and their religion. While covering the historical development in sufficient detail to serve as a general monograph on Baha'is, emphasis is laid on examining contemporary Baha'is with the Danish Baha'is community as a recurrent case. The book discusses Baha'is religious texts, rituals, economy, everyday life, demographic development, mission strategies, leadership and international activism in analyses based on primary material such as interview studies among the Baha'is, fieldwork data from the Baha'is World Centre in Israel and field trips around the world. The approach is a combination of history of religions and sociology of religion within a theoretical framework of religion and globalisation. Several general topics in the study of new religions are covered. The book contributes to the theoretical study of globalisation by proposing a new model for analysing globalisation and transnational religions* [Globalisation for the Common Good](#)

Kamran Mofid, 2002 *Although many attempts have been made by international organizations like the World Bank and IMF to raise living standards, the dire poverty of billions of people and the widening gap between rich and poor both within and between countries point to the failure of these policies* *New Age Religion and Globalization*

Mikael Rothstein, 2001 *New globalized religions take two forms. Unlike new religions such as Transcendental Meditation, the former Unification Church and The Family, which are just a few of the recent religions to form networks of essentially identical communities around the world, the New Age beliefs discussed in this volume have spread without the benefit of any organisation or unified culture and their more diffuse nature resists easy categorisation. While some of the chapters in this publication consider aspects of the general nature of New Age religion, spiritual imperialism versus cultural diversity, the overlap of globalisation and westernisation, the sources of New Age revelation and whether another age will follow, the remaining chapters are case studies which examine particular New Age beliefs including the healing movement, the spiritualization of money and the UFO Gnostic and goddess myths. The book will appeal not only to scholars of the history of religions and sociology of religion but also to those with an interest in New Age religious beliefs* **A World in Turmoil: A Baha'i Perspective**

warming afflict our planet And Though the world is encompassed with misery and distress yet no man hath paused to reflect what the cause or source of that may be As the roots of all these problems are spiritual in nature in this booklet we will pause to explore and reflect on some of the writings of the Bah Faith in search of the causes of world turmoil and the actions needed for securing its peace
