Bakunin The Father Of Anarchism:

Bakunin, the Father of Anarchism Anthony Masters, 1974 Bakunin was gay John O'Brien *God and the State* Mikhail Bakunin, 2021-01-08 *God and the State* called by its author The Historical Sophisms of the Doctrinaire School of Communism is an unfinished manuscript by the Russian anarchist philosopher Mikhail Bakunin published posthumously in 1882 The work criticises Christianity and the then burgeoning technocracy movement from a materialist anarchist and individualist perspective It has gone on to become Bakunin's most widely read and praised work

Philosophers and Religious Leaders Christian von Dehsen, 2013-09-13 *Philosophers and Religious Leaders* provides a synopsis of the lives and legacies of 200 men and women from the areas of religion and philosophy who have changed the world These individuals have developed extended or exemplified ideas fundamental to the way human beings perceive the meaning and purpose of their own lives and of their societies Some have challenged prevailing convictions and worked for immediate change during their lifetimes others have proposed new modes of thinking that have flourished only after their passing

[Aesthetics and Radical Politics](#) Gavin Grindon, 2008-12-18 There has always been a strong connection historically between aesthetics and radical politics and this is no less true for the global justice movement's current preoccupation with cultural approaches to political action The essays collected here seek to engage with past and present convergences between the theories and practices of artists and writers and the theories and practices of movements for radical social change There is already a massive amount of literature on Marxist approaches to aesthetics art and literature and whilst recognising the usefulness of such approaches the essays collected here attempt to engage with culture from other radical critical positions whether they be anarchist autonomist ecological or otherwise Such perspectives have often been overlooked historically but it is arguable that they now more centrally influence the activities of radical artists and activists As such the perspectives of these essays which are often drawn from or inspired by the practices of the current global justice movement exhibit an exhilarating political and generational break with the suppositions of earlier radical theoretical approaches to cultural critique

Political Economy from Below Rob Knowles, 2013-11-05 *Communitarian anarchism* is a generic form of socialism that denies the need for a state or any other authority over the individual from above and which requires absolute belief that the individual cannot exist outside of a community of others This book suggests that the communitarian anarchists of the nineteenth century developed and articulated a distinct tradition of economic thought The period of this study begins with the first major writing of the French communitarian anarchist Pierre Joseph Proudhon in 1840 and ends with the temporary burial of anarchist theorizing at the beginning of the First World War in 1914 However the tradition of communitarian anarchist economic thought did not end in 1914 The economic thought explored in this book provides a fresh perception of the fragmentation evident in many societies today especially where there is a substantial informal economy
