The Three Worlds of Bali John Stephen Lansing,1983 *The Changing World of Bali* Leo Howe,2006-06-07 The glossy guide book image of Bali is of a timeless paradise whose people are devoutly religious and artistically gifted However a hundred years of colonialism war and Indonesian independence and tourism have produced both modernizing changes and created an image of Bali as traditional Incorporating up to date ethnographic field work the book investigates the myriad of ways in which the Balinese has responded to the influx of outside influence The book focuses on the fascinating interrelationship between tourism economy culture and religion in Bali painting a twenty first century picture of the Balinese In documenting these diverse changes Howe critically assesses some of the work of Bali s most famous ethnographer Clifford Geertz and demonstrates the importance of a historically grounded and broadly contextualized approach to the analysis of a complex society
