## **Balzac's Recurring Characters:**

**Balzac's Recurring Characters** Anthony R. Pugh, 1974 *Reappearing Characters in Nineteenth-Century French Literature* Sotirios Paraschas, 2018-04-19 This book examines the phenomenon of the reappearance of characters in nineteenth century French fiction. It approaches this from a hitherto unexplored perspective that of the twin history of the aesthetic notion of originality and the legal notion of literary property. While the reappearance of characters in the works of canonical authors such as Honoré de Balzac and Émile Zola is usually seen as a device which transforms the individual works of an author into a coherent whole, this book argues that the unprecedented systematisation of the reappearance of characters in the nineteenth century has to be seen within a wider cultural, economic and legal context. While fictional characters are seen as original creations by their authors from a legal point of view, they are considered to be ideas which are not protected and can be appropriated by anyone. By co-examining the reappearance of characters in the work of canonical authors and their reappearances in unauthorised appropriations such as stage adaptations and sequels, this book discusses a series of issues that have shaped our understanding of authorship, originality and property.

**The One vs. the Many** Alex Woloch, 2009-02-09 Does a novel focus on one life or many? Alex Woloch uses this simple question to develop a powerful new theory of the realist novel based on how narratives distribute limited attention among a crowded field of characters. His argument has important implications for both literary studies and narrative theory. Characterization has long been a troubled and neglected problem within literary theory. Through close readings of such novels as *Pride and Prejudice*, *Great Expectations* and *Le Père Goriot*, Woloch demonstrates that the representation of any character takes place within a shifting field of narrative attention and obscurity. Each individual, whether the central figure or a radically subordinated one, emerges as a character only through his or her distinct and contingent space within the narrative as a whole. The character space, as Woloch defines it, marks the dramatic interaction between an implied person and his or her delimited position within a narrative structure. The organization of and clashes between many character spaces within a single narrative totality is essential to the novel's very achievement and concerns strikingly at issues central to narrative poetics: the aesthetics of realism and the dynamics of literary representation. Woloch's discussion of character space allows for a different history of the novel and a new definition of characterization itself. By making the implied person indispensable to our understanding of literary form, this book offers a forward-looking avenue for contemporary narrative theory.

**Weaving Balzac's Web** James Madden, 2003 This study explores the process by which Balzac made use of the unique structure of his fictional world to create subtlety and complexity both within and between the individual works of *La Comédie humaine*. Internal narrations, scenes of story-telling offer a particularly rich field of study as characters tell each other stories about other characters. Because of the system of recurring characters, Balzac's narrative framing creates layers of meaning, thus raising questions that resonate throughout the whole textual edifice. *Weaving Balzac's Web* shows how story-telling scenes can serve as

windows into the depths of Balzac's masterpiece and reveal the carefully constructed complexities and ambiguities that lie enmeshed in its vast narrative web      *Orientation in European Romanticism* Paul Hamilton, 2022-10-20 This book frames Romanticism as the epicentre of modern Europe's fascination with orientation and disorientation in literature and politics
