**Social Niche Marketing Mastery** Ritche Rockwell,2021  
Introduction To Niche Markets Through Social Networking Everyone is familiar with the concept of a market where a variety of goods products and services are traded A niche market is simply a subset of the market with a specific product focus aimed at meeting the demands of a particular target group such as the price range product quality and the demographics In fact basically any product that is sold can be put into a specific niche market However because some products are aimed at a general target group because of the focus of the market subset e.g price these are what is commonly known as the mainstream niche or high demand markets Not surprisingly due to globalization and a world view of modern business niche markets have found a very important advantage in the advent of the Internet Internet based niche segments of larger markets can be tapped into by savvy entrepreneurs by the use of technologies to build websites create blogs and other social network based marketing strategies This allows the niche marketer to rapidly gain access and exposure thereby better targeting their customer base to build loyalty and in turn a steady and passive income stream The reproducibility of niche marketing allows the technique to be repeated across several other niche websites depending on the target income level one would like to generate As many niches become saturated with marketers and the market share is divided amongst increasingly more competitors it is important to find smaller and new undiscovered niches Therefore unlike traditional business niche marketers also need to constantly evolve and adapt their business to the supply and demands of the current market With the advent of social networking sites like Facebook and Twitter researching niche markets that will practically buy everything you can throw at them has never been easier This guide will provide useful information for those who are interested in learning more about this cutting edge market and beginning a potentially lucrative career in niche marketing Throughout this book you will learn about many of the benefits of niche marketing and how you can successfully start your
