Domański,Bogusław Lackoroński,2023-11-30 This book examines the implications of Article 12 of the UN Convention on the Rights of Persons with Disabilities CRPD its resulting standard of protection for persons with disabilities and the way it is understood and implemented in its diverse signatory states Its overarching theme is to assess the impact of CRPD Article 12 on the private law concept of legal capacity and its limitations the significance of which carries over into the realm of penal law regulations Its impact is analysed primarily from the legal point of view but with due regard for its psychological and psychiatric ramifications Recognising the importance of these disciplines is important when implementing CRPD Article 12 into domestic law as they contribute to the determinants in creating a qualificatory legal framework for all persons with disabilities in particular to exercise their rights to legal capacity without let or hindrance As active legal capacity is a notion rooted in and coming from private law this forms the main research perspective The first section discusses the foundational concepts constituting the CRPD Article 12 standard from domestic private law and international law perspectives The work shows that the concepts adopted in private law interact with the protection of persons with disabilities as victims provided for in criminal law In addition where relevant authors also look at public law institutions that are connected with the private law solutions The volume will be an essential reference for academics researchers and policy makers working in the areas of private law criminal law mental health law human rights discrimination law as well as psychology and psychiatry **Código civil comentado** Julio César Rivera,2004-01-01 **Water, Governance, and Crime Issues** Katja Eman,Gorazd

growing original contributions of green criminology This volume captures the complex landscape of water crimes including the numerous disparities and inequalities of there being too much water in some places and too little in others amongst the many complexities The edited collection also covers conceptual issues i e water as a human right as well as practical hurdles i e the challenges in keeping statistics on offences and real world examples Many of the chapters are likely to introduce readers to new issues and the interplay with a myriad of traditional problems corruption organised crime privatisation and terrorism I agree with the editors and authors that water crime issues deserve further scientific study and this provides a solid starting point Dr Tanya Wyatt University of Northumbria Population growth and urbanization more frequent droughts due to climate change the privatization of and unequal access to water resources and increasing water pollution are just some of the contemporary and future challenges relating to water crimes Water Governance and Crime Issues speaks to the scientific relevance of water for green criminology as well as the policy implications of water crimes Several of the cases in this edited book refer to countries and regions we do not usually hear about and yet are perfect illustrations of the challenges faced in governing and studying water crimes Dr Lieselot Bisschop Erasmus School of Law
