and social forces Rather than leading to the demise of the community modernization and globalization thus seem to have reinforced the sense of local belonging How is this possible This anthropological analysis points at the simultaneous efforts of new and old cultural brokers ritual specialists and healers as well as young migrants who recreate the community by linking the outside world to local customs Their initiatives are taken up by women crucial for community building through elaborate food exchanges and men whose involvement is central to public ritual life Their combined efforts create a living community and link the village past to its rural urban present and future as a place of belonging in times of change Cora Govers is a senior staff member at the Netherlands Organisation for Scientific Research NWO
