Cold War 1945-1991:

The World of the Cold War Vladislav Zubok, 2025-05-01 FINALIST FOR THE ORWELL PRIZE Monumental and highly readable by smartly knitting together the past with the present Zubok brings a prescient and fresh perspective Financial Times A sweeping original history of the Cold War from an acclaimed historian of the USSR Why did the Cold War erupt so soon after the Second World War How did it escalate so rapidly spanning five continents over six decades And what led to the spectacular collapse of the Soviet Union In this comprehensive guide to the most widespread conflict in contemporary history Vladislav Zubok traces the origins of the Cold War in post war Europe through the tumultuous decades of confrontation to the fall of the Berlin Wall and beyond With remarkable clarity and unique perspective Zubok argues that the Cold War often seen as an existential battle between capitalist democracy and totalitarian communism has long been misunderstood He challenges the popular Western narrative that economic superiority and democratic values led the USA to victory Instead he looks beyond the familiar images of East West rivalry shining a light on the impact of non Western actors and placing the war in the context of global decolonization Soviet weakness and the accidents of history Here he interrogates what happens when stability and peace are no longer the default when treaties are broken and when diplomacy ceases to function Drawing on years of research and informed by Zubok s three decades in the USSR followed by three decades in the West The World of the Cold War paints a striking portrait of a world on the brink *Cold War* Ken Webb, 2009 *The Cold War 1945-91* Michael Dockrill, Michael F. Hungary's Cold War Csaba Békés,2022-05-03 In this magisterial and pathbreaking work Csaba B k s shares decades of his research to provide a sweeping examination of Hungary's international relations with both the Soviet Bloc and the West from the end of World War II to the dissolution of the Soviet Union in 1991 Unlike many studies of the global Cold War that focus on East West relationships often from the vantage point of the West B k s grounds his work in the East drawing on little

used non English sources As such he offers a new and sweeping Cold War narrative using Hungary as a case study demonstrating that the East Central European states have played a much more important role in shaping both the Soviet bloc overall policy and the East West relationship than previously assumed Similarly he shows how the relationship between Moscow and its allies as well as among the bloc countries was much more complex than it appeared to most observers in the East and the West alike
