Poland, Germany and State Power in Post-Cold War Europe Stefan Szwed, 2018-09-29 This book examines the post Cold War Polish German relationship and the puzzling rise of foreign and security policy differences between the two states during the 2000s Through an investigation of four policy issues NATO s out of area mandate European Constitution and the division of voting power in the Council relations with Russia and the eastern neighbours as well as EU energy policy the author identifies the roots of their conflict in a structure of material spatial and temporal asymmetries Rather than treat them as currency however he explores the less conspicuous ways in which power is exercised and structure matters inside a community governed by shared rules and norms In pursuing its research question theoretical work historical reconstructions and empirical analyses the book combines security studies transatlantic relations European integration and Polish and German politics with general theorizing and conceptual grounding in international relations and political science **Poland**

From Partitions to EU Accession Piotr Koryś, 2018-11-29 This book surveys Poland s move from being a post feudal backward peripheral country to being a modern capitalist European state from the partition of the commonwealth of Poland and Lithuania to the abolishment of second serfdom late industrialization to state socialism post partition fragmentation to post Second World War westward dislocation and from the Solidarno movement to accession into the European Union Could Poland really be considered an underdeveloped nation throughout the last 200 years What factors contributed to its backwardness Has Poland yet managed to catch up with the West This book the first overview of the modern economic history of Poland to be published in English addresses these and many other questions crucial for developing our understanding of the economic history of modern Central Eastern Europe The economic development of Poland is analyzed through data and statistics as well as through analysis of the ideas that paved the way for the politics of economic and social modernization Democracy In Poland Raymond Taras, Marjorie Castle, 2018-02-19 Ever changing election rules a highly fluid party system a constitution considered illegitimate by more than one major political actor polarized political elites and a system of corruption that has grown up together with the young democracy itself these characterize contemporary Polish politics At the same time Poland is frequently identified as the most successful example of a transition from communism to capitalism having led this series of world changing transitions It has distanced itself from a turbulent history as pawn in Eastern Europe s international politics to become a leading candidate for membership in the exclusive European Union club As Polish democratic politics evolves it is taking unexpected forms and producing equally unexpected results Through a comprehensive analysis of politics in this young European democracy Marjorie Castle and Ray Taras explain the complexity and uncertainty of political processes and outcomes in Poland Poland spast the flawed Second Republic established after World War I as well as the imperfect independence in the Soviet shadow following World War II s devastation dramatizes the unique historic opportunity it was given in 1989 to determine its own political future and perhaps eventually become a major

European power Choices made in 1989 and thereafter would not only construct a new democracy but shape and limit its possibilities The primary focus here is on contemporary politics what the fundamental political cleavages are whether parties adequately represent popular interests who the political elites are and what games they play what influence the Catholic Church still holds in an aspiring Western style secular republic and what policy challenges face Poland in the future Inimitable political leaders changing political arenas and complex policy making processes come to life through a fascinating narrative characterized by an insider's insight

The Power of Symbols Against the Symbols of Power Jan Kubik, 1994 The authority of Polish communists in 1944 1945 was usurpatory it was not given to them by the Polish people Nor was the power they held the result of their own actions they were installed as the country's rulers by the Soviet army Yet Polish Communists set out to produce credible claims to authority and legitimacy for their power by reshaping the nation's culture and traditions Jan Kubik begins his study by demonstrating how the strategy for remodeling the national culture was implemented through extensive use of public ceremonies and displays of symbols by the Gierek regime 1970 1980 He then reconstructs the emergence of the Catholic Church and the organized opposition as viable counter hegemonic subcultures Their growing strength opened the way for counter hegemonic politics the delegitimization of the regime the rise of Solidarity and the collapse of communism He is not studying politics per se but rather culture and the subtle and indirect ways power is realized within it often outside of traditionally defined politics Kubik's approach which draws heavily on modern anthropological theory helps explain why
