American Indian Ethnic Renewal Joane Nagel, 1997-09-25 Does activism matter This book answers with a clear yes American Indian Ethnic Renewal traces the growth of the American Indian population over the past forty years when the number of Native Americans grew from fewer than one half million in 1950 to nearly 2 million in 1990 This quadrupling of the American Indian population cannot be explained by rising birth rates declining death rates or immigration Instead the growth in the number of American Indians is the result of an increased willingness of Americans to identify themselves as Indians What is driving this increased ethnic identification In American Indian Ethnic Renewal Joane Nagel identifies several historical forces which have converged to create an urban Indian population base a reservation and urban Indian organizational infrastructure and a broad cultural climate of ethnic pride and militancy Central among these forces was federal Indian Termination policy which ironically was designed to assimilate and de tribalize Native America Reactions against Termination were nurtured by the Civil Rights era atmosphere of ethnic pride to become a central focus of the native rights activist movement known as Red Power This resurgence of American Indian ethnic pride inspired increased Indian ethnic identification launched a renaissance in American Indian culture language art and spirituality and eventually contributed to the replacement of Termination with new federal policies affirming tribal Self Determination American Indian Ethnic Renewal offers a general theory of ethnic resurgence which stresses both structure and agency the role of politics and the importance of collective and individual action in understanding how ethnic groups revitalize and reinvent themselves Scholars and students of American Indians social movements and activism and recent United States history as well as the general reader interested in Native

American life will all find this an engaging and informative work The Indian Southwest, 1580-1830 Gary Clayton Anderson,1999 In The Indian Southwest 1580 1830 Gary Clayton Anderson argues that in the face of European conquest and severe droughts that reduced their food sources Indians in the Southwest proved remarkably adaptable and dynamic

Struggle for Ethnic Identity Pyong Gap Min,1999-01-20 Dr Pyong Gap Min and Rose Kim present a compilation of narratives on ethnic identity written by first 1 5 and second generation Asian American professionals In an attempt to reconcile the dichotomies long associated with being both Asian and American these narratives trace the formation of each author s ethnic identity and discuss its importance in shaping his or her professional career The narratives touch upon common themes of prejudice and discrimination loss and retention of ethnic subculture ethnic versus non ethnic friendship networks and racial and inter racial dating patterns When coupled with Dr Min s comprehensive introductory chapter on contemporary trends in the study of ethnicity these narratives prove that constructing one s ethnicity is truly a dynamic process and serve as an invaluable resource for anyone interested in teaching or studying the concepts of ethnic identity

Handbook of Constructionist Research James A. Holstein,Jaber F. Gubrium,2008-01-01 Constructionism has become one of the most popular research approaches in the social sciences But until now little attention has been given to the conceptual and methodological underpinnings of the constructionist stance and the remarkable diversity within the field This cutting edge handbook brings together a dazzling array of scholars to review the foundations of constructionist research how it is put into practice in multiple disciplines and where it may be headed in the future The volume critically examines the analytic frameworks strategies of inquiry and methodological choices that together form the mosaic of contemporary constructionism making it an authoritative reference for anyone interested in conducting research in a constructionist vein

Blue Collar Bayou Jacques M. Henry,Carl Leon Bankston,2002-11-30 Although the French language and the traditional rural way of life are disappearing among Louisiana Cajuns identification with Cajun ethnicity is flourishing Henry and

Bankston draw on historical documents ethnographic observations and interviews and statistical sources to investigate and explain this phenomenon They argue that while Cajun ethnicity developed from and consisted of the French speaking rural poor of the region it has been transformed during the 20th century into a regional class with common interests and outlooks A substantial minority of Cajuns have risen out of the blue collar niche and into the middle class creating more complicated problems of adjustment role redefinition and the changing nature of relationships with friends and family who remain part of the working class The authors detail and describe the way the working class Cajun majority and the white collar Cajun minority draw on images and ideas from a reconstructed past to make sense of their present conditions and changes in their community This comprehensive structural analysis of Cajun ethnicity suggests a new emphasis on structural conditions in understanding ethnic phenomena and introduces the concept of an economy of ethnicity In analyzing and exploring the creation and maintenance of Cajun ethnicity Henry and Bankston also point toward a general theory of contemporary ethnic groups Why for instance have more and more people claimed to be of Native American ancestry How did the population of people calling themselves Irish soar over the course of a very brief period of time Arguing that as the cultural basis of difference subsides ethnic claims increase and that such claims are based on a number of factors including socioeconomic and regional concerns the authors contend that the same factors at play in the maintenance of the Cajun ethnicity are also at play in other ethnic communities and subcultures within the United States They conclude that in claiming an ethnic identity group members rework ideas of history and ancestry in order to apply these ideas to modern life

Language, Elites, and the State Amilcar A. Barreto,1998-02-28 For decades the U S territory of Puerto Rico and the Canadian province of Quebec have been riveted by the politics of nationalism the question of their final status and the protection of their local languages In the name of cultural defense the legislatures in San Juan and Quebec City have passed several laws focusing on protecting the vernacular Barreto explores these two cases and challenges some general

preconceived notions about nationalist movements A common premise in ethnic conflict studies is that nationalism is caused by cultural traits such as language or religion or is a result of a region's subservient economic role vis vis the country's core However Barreto contends that Puerto Rican and Quebecois elites turned to nationalism in reaction to their social marginalization and economic suppression Anglophone elites in the U S and Canada established a hegemonic order making English a requirement for social and economic ascendancy Shunned by the country's dominant group on account of their language elites in Puerto Rico and Quebec took up the banner of nationalism attempting to establish a counter hegemonic order Thus nationalism Barreto contends is an unanticipated reaction to the exclusionary attitudes and policies of one group against another This analysis is important to political scientists social scientists and researchers involved with nationalism ethnic conflict and Puerto Rican and Canadian studies
