## **Creation And History Theology Liberation Series:**

**Creation and History** Pedro Trigo,1991      Creation and History Pedro Trigo (S.I.),1992      **Creation in "The Catechism of the Catholic Church"** J. Njoroge wa Ngugi,2002      A Theology of Liberation Gustavo Guti rrez,1988-01-01

This is the credo and seminal text of the movement which was later characterized as liberation theology The book burst upon the scene in the early seventies and was swiftly acknowledged as a pioneering and prophetic approach to theology which famously made an option for the poor placing the exploited the alienated and the economically wretched at the centre of a programme where the oppressed and maimed and blind and lame were prioritized at the expense of those who either maintained the status quo or who abused the structures of power for their own ends This powerful compassionate and radical book attracted criticism for daring to mix politics and religion in so explicit a manner but was also welcomed by those who had the capacity to see that its agenda was nothing more nor less than to give good news to the poor and redeem God s people from bondage      *American Book Publishing Record* ,2005      **Buddhism, Christianity and the Question of Creation** Perry Schmidt-Leukel,2006 Is the world created by a divine creator Or is it the constant product of karmic forces Exploring the aspects of Buddhist objections against the idea of a divine creator and Christian possibilities to meet the Buddhist critique this work asks for the potential truth on both sides and suggests a surprising way of overcoming the barrier

*Religion, Space, and the Environment* Sigurd Bergmann,2017-07-05 Religions often nurture important skills that help believers locate themselves in the world Religious perceptions practices emotions and beliefs are closely interwoven with the environments from which they emerge Sigurd Bergmann s driving emphasis here is to explore religion not in relation to but as a part of the spatiality and movement within the environment from which it arises and is nurtured Religion Space and the Environment emerges from the author s experiences in different places and continents over the past decade At the book s heart lie the questions of how space place and religion amalgamate and how lived space and lived religion influence each other Bergmann explores how religion and the memory of our past impact our lives in urban spaces how the sacred geographies in Mayan and northeast Asian lands compare to modern eco spirituality and how human images and practices of moving in with and through the land are interwoven with the processes of colonization and sacralising and the practices of power and visions of the sacred among other topics      **American Religious History** Gary Scott Smith,2020-12-07 A mix of thematic essays reference entries and primary source documents covering the role of religion in American history and life from the colonial era to the present Often controversial religion has been an important force in shaping American culture Religious convictions strongly influenced colonial and state governments as well as the United States as a new republic Religious teachings values and practices deeply affected political structures and policies economic ideology and practice educational institutions and instruction social norms and customs marriage and family life By analyzing religion s interaction with American culture and prominent religious leaders and ideologies this reference helps readers to better understand

many fascinating often controversial religious leaders ideas events and topics The work is organized in three volumes devoted to particular periods Volume one includes a chronology highlighting key events related to religion in American history and an introduction that overviews religion in America during the period covered by the volume and roughly 10 essays that explore significant themes These essays are followed by approximately 120 alphabetically arranged reference entries providing objective fundamental information about topics related to religion in America Each volume presents nearly 50 primary source documents each introduced by a contextualizing headnote A selected general bibliography closes volume three
