Creation Of Meaning In Clinical Social Work:

The Creation of Meaning in Clinical Social Work Carolyn Saari, 1991-09-20 Reflecting the trend of constructivist thinking across the sciences this volume provides a framework for integrating newer ideas with the traditional practice of clinical social work Its underlying assumptions are that construction of a mutual meaning system between therapist and client is essential for treatment and that identity complexity is essential to healthy adaptation Relating to former notions of process and content in treatment this volume by Carolyn Saari illuminates these concepts In her previous book *Clinical Social Work Treatment How Does It Work* Saari demonstrated the importance of a shared meaning system in treatment In this significant new work she offers a detailed examination of the manner in which such meaning is constructed She also shows how this theory more adequately bridges the gaps between the intrapsychic and the interpersonal as well as between the individual and the social structure As she explains in her introduction the adaptive point of view has provided an inadequate foundation for clinical social work theory A theory of meaning in which psychological health is indicated by a constructed personal meaning system or identity that is highly differentiated articulated and integrated is proposed to take the place of conceptualizations about adaptation This theory of meaning which includes the idea that what the child internalizes is his or her experiences with the world is believed to hold more utility for understanding the psychological effects of phenomena such as racism and social oppression In an intellectual climate involving much heated debate between treatment methodologies based upon scientific empiricism and those based on hermeneutics Saari argues that clinical theory must rely on both a causal developmental science and on a theory of meaning that involves the narrative construction of the possible Her work lays the foundation for sorting out the aspects of clinical theory that involve each of these ways of thinking and for exploring their interaction Providing the basis for a deeper understanding of the complexities of human functioning and clinical practice this volume is an enlightening guide for advanced graduate students and an invaluable resource for practicing clinicians

Human Behavior Theory and Social Work Practice Roberta R. Greene, 2011-12-31 *Human Behavior Theory and Social Work Practice* remains a foundation work for those interested in the practice and teaching of social work Roberta Greene covers theoretical areas and individual theorists including classical psychoanalytic thought Eriksonian theory Carl Rogers cognitive theory systems theory ecological perspectives social construction feminism and genetics She discusses the historical context its philosophical roots and major assumptions of each theory The general theme which distinguishes this volume is that the person in environment perspective has been a central influence in the formation of the profession s knowledge base as well as its approach to practice Greene provides perspective on how individuals and social systems interact This book examines how social workers can use theory to shape social work practice by increasing his or her understanding of and potential for enhancing human well being Greene covers the relationship between human behavior theory and professional social work practice She also explores the challenges and limitations of each theory and addresses

the following issues how the theory serves as a framework for social work practice how the theory lends itself to an understanding of individual family group community or organizational behavior what the implications are of the theory for social work interventions or practice strategies and what role it proposes for the social worker as a change agent Throughout the profession s history social workers have turned to a number of theoretical approaches for the organizing concepts needed to define their practice base The aims of social work to improve societal conditions and to enhance social functioning of and between individuals families and groups are put into action across all fields of practice and realized through a variety of methods in a range of settings This third edition completely revised represents a fundamental contribution to the field and like its predecessors will be widely used as a basic text

Multicultural and International Approaches in Social Work Practice Kui-Hee Song, 2016-09-26 Building upon the author s integrative and interactive ideas about human services fields this book presents an intercultural perspective of social work education practice and research with culturally linguistically relationally underprivileged minority groups in the local and global communities to show how the synthesis of theories from postmodern social constructionism multiculturalism and international organization empowerment can be applied when working with Asian immigrant families This book also demonstrates how a mutual development model of intercultural organizational institutional collaborative partnership can be relevant when providing an International Experience for Human Services Abroad Course Author Kui Hee Song uses in depth case studies in the culturally linguistic and diverse context of human services fields and in the cross nationally interactive context of host country human services organizations and home university academic administrations Kui Hee Song examines the clinical change process of a Korean immigrant family that is working with Child Protective Services seeking to resolve physical child abuse problems and generate new meanings in parent child relationships through therapeutic conversational dialogue As the new to this edition a case of Ming s story is especially the cultural differences between the Chinese immigrant client family and American medical setting where practitioner s personal beliefs were challenged Kui Hee Song critically examines specific steps to take in establishing intercultural service learning field placements for an experiential learning education abroad course Song explores the significant leadership roles and responsibilities of host country human services organizations and home university administrators involved with making a new international human services experience abroad program planning implementation and evaluation Specially Song provides a profound understanding of the empowerment process of a Korean family a conversational partnership in dialogue that invites the clients to speak their loud hitherto unheard voices and enhance a personal perception of competency for action and hope Song also gives a thoughtful comprehension of a mutual empowerment process of cross national collaborative partners differential responsibilities but mutually shared power vision and goals in working relationship that allows for each collaborator to stand together in unity of transactional and transformational leadership behaviors and strengthens the sustainability of the effective international human services

experience abroad program Beyond Multiculturalism in Social Work Practice Kui-Hee Song,2004 Drawn from experience this in depth case study presents an integrated approach to social work practice with culturally linguistically diverse clients to show how theories of postmodernism and multiculturalism can be applied when working with Korean immigrant families

Ferrara,1995 Information on more than 17 500 living authors from English speaking countries *Rethinking Social Work Practice with Multicultural Communities* Yolanda C. Padilla,Ruth McRoy,Rocío Calvo,2020-05-21 With research showing that clients from diverse racial and ethnic groups disproportionately experience barriers in their interactions with social services and that providers recognize the need to be better prepared to work with these groups this book invites us to rethink current approaches to social work practice with multicultural communities We begin with a synthesis of the current evidence on the provision of care to multicultural communities that provides an in depth look at both client and provider experiences The following chapters offer tangible research based approaches to engaging with multicultural clients and reveal often unrecognized problems with current models of social work practice A unique compilation of rigorous qualitative experimental and community based studies demonstrate the effectiveness of culturally grounded interventions and identify the specific factors associated with positive outcomes Areas covered include disability marriage and couple relationship problems domestic violence and mental illness within Latinx African American First Nations and South Asian communities As the authors in this book show the stories of multicultural communities are narratives of unprecedented resourcefulness and reinvention Yet social work underutilizes rich family and community cultural resources By not facilitating their involvement social service systems compromise these vital resources which social services cannot replace In arguing that we need to expand professional boundaries to encompass indigenous practices family and extended kin and therapeutic relationships that make sense to different cultural groups this book will be of interest to those studying the ways in which social work practice can be improved to better suit the needs of a racially and ethnically diverse population This book was originally published as a special issue of the Journal of Ethnic Cultural Diversity in Social Work *Creating Consent Culture* Marcia Baczynski,Erica Scott,2022-01-21 Can you imagine a world where no one feared a violation of their boundaries A world where everyone felt safe in their bodies and confident in asking for what they wanted Teaching consent education is the way to achieve this vision and this entry level book for educators helps you teach and discuss consent issues to young adults from 10 The fun interactive exercises in this book focus on consent in all interactions not just sexual ones and explores skills that help young people to increase their relational intelligence and build positive reciprocal relationships Drawing on their combined experiences of over 25 years as consent educators the authors have seen that more respectful generous and joyful ways of relating to one another are possible In this

vital book they challenge common assumptions about consent and coercion and invite educators of all walks to become instigators of a profound culture shift
