Cocina Yucateca:

Antiguo manual de cocina yucateca, 1926 **Cocina Yucateca tradicional** Silvia Luz Carrillo Lara, 1994

Foodscapes, Foodfields, and Identities in the Yucatán Steffan Igor Ayora-Diaz, 2012-01-01 The state of Yucatán has its own distinct culinary tradition and local people are constantly thinking and talking about food. They use it as a vehicle for social relations but also to distinguish themselves from Mexicans. This book examines the politics surrounding regional cuisine as the author argues that Yucatecan gastronomy has been created and promoted in an effort to affirm the identity of a regional people and to oppose the hegemonic force of central Mexican cultural icons and forms. In particular, Yucatecan gastronomy counters the homogenizing drive of a national cuisine based on dominant central Mexican appetencies and defies the image of Mexican national cuisine as rooted in indigenous traditions. Drawing on post-structural and postcolonial theory, the author proposes that Yucatecan gastronomy, having successfully gained a reputation as distinct and distant from Mexican cuisine, is a bifurcation from regional culinary practices. However, the author warns this leads to a double paradoxical situation that divides the nation while a national cuisine attempts to silence regional cultural diversity: the fissures in the project of a homogeneous regional identity are revealed.

K'Oben Amber M. O'Connor, Eugene N. Anderson, 2016-12-14 K'Oben traces the Maya kitchen and its associated hardware, ingredients, and cooking styles from the earliest times for which we have archaeological evidence through today's culinary tourism in the area. It focuses not only on what was eaten and how it was cooked but also on the people involved: who grew or sourced the foods, who cooked them, who ate them. Additionally, the authors examine how Maya foodways and the people involved fit into the social system, particularly in how food is incorporated into culture, economy, and society. The authors provide a detailed literature review of hard-to-find sources, including out-of-print centuries-old cookbooks, archaeological field notes, ethnographies, and ethnohistories out of circulation and not available in English; thesis documents only available in Spanish and in university archives; as well as current field research on the Maya. The more recent Maya foodways can be studied from cookbooks, ethnographies, and ethnohistorical documentation. Between the two of us, we have assembled a small but representative collection of cookbooks, some self-published and rare, that were available in Mérida and elsewhere in Mexico during the late 20th century. Some are quite old and all reflect local traditional foodways. Geographically, the book concentrates on Yucatán, Tabasco, and Chiapas in Mexico but will include Pre-Classic and Classic evidence from Guatemala and El Salvador whose foodways are influenced by Maya traditions.
