Cocina Yucateca Tradicional:

Cocina Yucateca tradicional Silvia Luz Carrillo Lara, 1994 *Foodscares, Foodfields, and Identities in the Yucatán* Steffan Igor Ayora-Diaz, 2012-01-01 The state of Yucatán has its own distinct culinary tradition and local people are constantly thinking and talking about food They use it as a vehicle for social relations but also to distinguish themselves from Mexicans This book examines the politics surrounding regional cuisine as the author argues that Yucatecan gastronomy has been created and promoted in an effort to affirm the identity of a regional people and to oppose the hegemonic force of central Mexican cultural icons and forms In particular Yucatecan gastronomy counters the homogenizing drive of a national cuisine based on dominant central Mexican appetencies and defies the image of Mexican national cuisine as rooted in indigenous traditions Drawing on post structural and postcolonial theory the author proposes that Yucatecan gastronomy having successfully gained a reputation as distinct and distant from Mexican cuisine is a bifurcation from regional culinary practices However the author warns this leads to a double paradoxical situation that divides the nation while a national cuisine attempts to silence regional cultural diversity the fissures in the project of a homogeneous regional identity are revealed

Cocina yucateca Nimo Neri, 1998 **K'Oben** Amber M. O'Connor, Eugene N. Anderson, 2016-12-14 K Oben traces the Maya kitchen and its associated hardware ingredients and cooking styles from the earliest times for which we have archaeological evidence through today's culinary tourism in the area It focuses not only on what was eaten and how it was cooked but the people involved who grew or sourced the foods who cooked them who ate them Additionally the authors examine how Maya foodways and the people involved fit into the social system particularly in how food is incorporated into culture economy and society The authors provide a detailed literature review of hard to find sources including out of print centuries old cookbooks archaeological field notes ethnographies and ethnohistories out of circulation and not available in English thesis documents only available in Spanish and in university archives as well as current field research on the Maya The more recent Maya foodways can be studied from cookbooks ethnographies and ethnohistorical documentation Between the two of us we have assembled a small but representative collection of cookbooks some self published and rare that were available in Merida and elsewhere in Mexico during the late 20th century Some are quite old and all reflect local traditional foodways Geographically the book concentrates on Yucatan Tabasco and Chiapas in Mexico but will include Pre Classic and Classic evidence from Guatemala and El Salvador whose foodways are influenced by Maya traditions **Pre-Columbian Foodways** John Staller, Michael Carrasco, 2009-11-24 The significance of food and feasting to Pre Columbian Mesoamerican cultures has been extensively studied by archaeologists anthropologists and art historians Foodways studies have been critical to our understanding of early agriculture political economies and the domestication and management of plants and animals Scholars from diverse fields have explored the symbolic complexity of food and its preparation as well as the social importance of feasting in contemporary and historical societies This book unites these disciplinary perspectives from the

social and biological sciences to art history and epigraphy creating a work comprehensive in scope which reveals our increasing understanding of the various roles of foods and cuisines in Mesoamerican cultures The volume is organized thematically into three sections Part 1 gives an overview of food and feasting practices as well as ancient economies in Mesoamerica Part 2 details ethnographic epigraphic and isotopic evidence of these practices Finally Part 3 presents the metaphorical value of food in Mesoamerican symbolism ritual and mythology The resulting volume provides a thorough interdisciplinary resource for understanding food feasting and cultural practices in Mesoamerica
