Cognition Stephen K. Reed, 2010. Dr. Stephen Reed's Ninth Edition of *COGNITION: THEORIES AND APPLICATIONS* focuses on the theories that underlie cognitive phenomena, as well as empirical data that establishes a traditional information processing approach to cognitive psychology. This structure allows undergraduates to discover the direct relevance of cognitive psychology to many of their daily activities. The text incorporates unparalleled scholarship in a distinctive, clear voice that allows for the emphasis of both contemporary and classical research through real-life examples and experiments. Revised and updated throughout to maintain a high degree of currency and accuracy, content reflects the ever-evolving field and is made relevant to students' lives through the inclusion of popular articles from well-known magazines and newspapers. As a result of its adherence to three criteria, the material must make an important contribution to cognitive psychology, be accessible, and be both understandable and interesting. The text is an invaluable tool in learning cognitive psychology.

Cognitive Psychology in and Out of the Laboratory Kathleen M. Galotti, 2004. Kathleen Galotti's text led the way in emphasizing the applied side of cognitive psychology. The title of the book emphasizes its in and out of the laboratory focus, which includes cross-cultural, individual, and gender differences, as well as cognitive development through adolescence. This coverage is very unique to Galotti's text, which shows readers both the importance and the personal relevance of understanding brain function. *COGNITIVE PSYCHOLOGY IN AND OUT OF THE LABORATORY* is perfect for instructors who like to supplement their primary text with readings from additional sources. Additional study aids, review questions, InfoTrac College Edition search terms and activities, and references to the CogLab Web site encourage students to get involved with the content and help them understand even the most abstract concepts through hands-on practice and reinforcement.
