Theological Perspectives on Free Will Aku Visala, Olli-Pekka Vainio, 2023-07-21 Free will is a perennial theological and philosophical topic As a central dogmatic locus it is implicated in discussions around core Christian doctrines such as grace salvation sin providence evil and predestination This book offers a state of the art look at recent debates about free will in analytic and philosophical theology The chapters revolve around three central themes the debate between theological compatibilists and libertarians the communal nature of Christian freedom and the role of free will in Christology With contributions by leading scholars the volume provides a valuable overview of current arguments as well as novel openings and ideas for further discussion

Free Will and Epistemology Robert Lockie, 2018-01-11 In the first in depth study of the transcendental argument for decades Free Will and Epistemology defends a modern version of the famous transcendental argument for free will that we could not be justified in undermining a strong notion of free will as a strong notion of free will is required for any such process of undermining to be itself epistemically justified By arguing for a conception of internalism that goes back to the early days of the internalist externalist debates it draws on work by Richard Foley William Alston and Alvin Plantinga to explain the importance of epistemic deontology and its role in the transcendental argument It expands on the principle that ought implies can and presents a strong case for a form of self determination With references to cases in the neuroscientific and cognitive psychological literature Free Will and Epistemology provides an original contribution to work on epistemic
