Cold War In Hell:

Cold War in Hell Harry Blamires, 1955 **Cold Warrior Hell** Tracy Baker, 2017-05-12 The Cold War era was a time of international paranoia that created tremendous stress for the whole world. Christians were not immune from this and had to live and work in the environment of fear in a world that had thousands of nuclear weapons. Surprise attacks by aggressors during WWII combined with nuclear weapons on the world stage set forth the possibility of a surprise attack with drastically worse consequences. In this book Dr Baker sets forth the experiences and stories of a Cold Warrior as he lived and worked through that difficult time in history. He has kept the stories as realistic as possible though it is written for dramatic effect. All names are fictitious however in order to protect the privacy of the individuals involved. There are stories that will be humorous to the reader but all the stories create an atmosphere of high drama. That was the atmosphere of the time because the demands on the military personnel were extreme with relatively small reward for their service. The stories and experiences verbally illustrated occurred in a variety of settings: Minuteman Missile Maintenance, Minuteman Missile Launch, a teaching assignment Base Supply including Fuels Management and finally Munitions Supply. No specific units or bases are named to preserve their security and honor. The reader will note that the people described in the book are not super men or women but normal people put into extraordinary situations by the circumstances of the Cold War. Due to the large variety of personalities involved and the extreme demands of the complex systems circumstances are sometimes created that few if any fiction writers could create. The result is that the reader will at times be spellbound but always kept interested by the dramas presented. If the reader gets to laugh at times that's a plus.

Mad as Hell Loyal Gordon Bassett, 2020-10 MAD AS HELL is a memoir describing the Cold War the United States Air Force's Strategic Air Command SAC and the rarely recognized strategic nuclear weapons bomber the two man FB 111A aircraft. Events take place between 1975 and 1979. The title is a double entendre referring to the wartime strategy of Mutual Assured Destruction MAD. It is written by a former US Air Force career officer who piloted the bomber and is a Cold War warrior. In Part I he writes about the United States Cold War strategies, the wartime organizations, the role and tools of its deterrent forces, the training and the experiences of the FB 111A crews who would serve as the leading spear for a nuclear weapons conflict. In Part II the author turns to a fictional very realistic narrative about the FB 111A as its two Crew Dogs fly their nuclear bomb loaded war machine to destroy enemy targets.

Company. Department of Bibliography,1978 *Civil War is Not a Stupid Thing* Christopher Cramer,2006 This book takes
issue with two common perspectives on violence and war The first is the liberal interpretation according to which war is
exclusively negative in its effects and peace is easily achieved through democratisation and free trade In this view modern
liberal market democracies have outgrown violence and only resort to it in self defence The second is a romantic utopian
view of violence Transposed into political rhetoric these two views are often directly opposed as they are nowadays in Iraq
and in the War on Terror Cramer s book forges an alternative way of understanding the role of violence in the transition to
capitalism and a global economy American Soldiers Peter S. Kindsvatter,2003 Some warriors are drawn to the thrill of
combat and find it the defining moment of their lives Others fall victim to fear exhaustion impaired reasoning and despair
This book synthesizes the wartime experiences of American soldiers from the doughboys of World War I to the grunts of
Vietnam Focusing on both soldiers and marines it draws on histories and memoirs oral histories psychological and
sociological studies and even fiction to show that their experiences remain fundamentally the same regardless of the enemy
terrain training or weaponry
