COLD RELATIONS

Cold Relations

Alexander Balmain Bruce

Cold Relations:

Cold Relations Gerald Hammond, 2006 Sometimes it takes a while for the truth to come to the surface When Politics Becomes Personal Alexa Bankert, 2024-01-18 Demonstrates how partisans can feel deeply attached to their political party without feeling disdain for their political opponents *Consuls in the Cold War*, 2023-05-08 No studies currently exist on consuls and consulates often dismissed as lowly figures in the diplomatic process in the Cold War Research into the work of these overlooked poor relations offers the chance of new perspectives in the field of Cold War studies exploring their role in representing their country's interests in far flung and unexpected places and their support for particular communities of fellow nationals and itinerant travellers in difficulties These unnoticed actors on the international stage played far more complicated roles than one generally imagines Contributors are Tina Tamman David Schriff Ariane Knuesel Lori Maguire Laurent Cesari Sue Onslow Pedro Aires Oliveira David Lee and Marek Ha derek Media and the Cold War in the 1980s Henrik G. Bastiansen, Martin Klimke, Rolf Werenskjold, 2018-11-08 The Cold War was a media phenomenon It was a daily cultural political struggle for the hearts and minds of ordinary people and for government leaders a struggle to undermine their enemies ability to control the domestic public sphere This collection examines how this struggle played out on screen radio and in print from the late 1970s through the early 1990s a time when breaking news stories such as Ronald Reagan's Star Wars program and Mikhail Gorbachev's policy of glasnost captured the world's attention Ranging from the United States to the Soviet Union and China these essays cover photojournalism on both sides of the Iron Curtain Polish punk Norwegian film Soviet magazines and more concluding with a contribution from Stuart Franklin one of the creators of the iconic Tank Man image during the Tiananmen Square protests By investigating an array of media actors and networks as well as narrative and visual frames on a local and transnational level this volume lays the groundwork for writing media into the history of the late Cold War *Rivalry and Alliance Politics in Cold War Latin America* Christopher Darnton, 2014-06-30 The success or failure of foreign policy initiatives in Latin America is heavily influenced by bureaucratic and military background players Rivalry and Alliance Politics in Cold War Latin America Christopher Darnton's comparative study of the nature of conflict between Latin American states during the Cold War provides a counterintuitive and shrewd explanation of why diplomacy does or doesn't work Specifically he develops a theory that shows how the parochial interests of state bureaucracies can overwhelm national leaders foreign policy initiatives and complicate regional alliances His thorough evaluation of several twentieth century Latin American conflicts covers the gamut of diplomatic disputes from border clashes to economic provocations to regional power struggles Darnton examines the domestic political and economic conditions that contribute either to rivalry continued conflict or rapprochement diplomatic reconciliation while assessing the impact of U S foreign policy Detailed case studies provide not only a robust test of the theory but also a fascinating tour of Latin American history and Cold War politics including a multilayered examination of Argentine Brazilian strategic competition and

presidential summits over four decades three rivalries in Central America following Cuba's 1959 revolution and how the 1980s debt crisis entangled the diplomatic affairs of several Andean countries These questions about international rivalry and rapprochement are of particular interest to security studies and international relations scholars as they seek to understand what defuses regional conflicts creates stronger incentives for improving diplomatic ties between states and builds effective alliances The analysis also bears fruit for contemporary studies of counterterrorism in its critique of parallels between the Cold War and the Global War on Terror its examination of failed rapprochement efforts between Algeria and Morocco and its assessment of obstacles to U S coalition building efforts *Eastern Christianity and the Cold War, 1945-91* Lucian

Leustean,2010-01-21 Despite widespread persecution Orthodox churches not only survived the Cold War period but levels of religiosity in Orthodox countries remained significant This book examines the often surprising relations between Orthodox churches and political regimes It provides a comprehensive overview of the dynamics between Eastern Christianity and politics from the end of the Second World War to the fall of communism covering 40 Orthodox churches including diasporic churches in Africa Asia America and Australia Based on research from recently opened archives and publications in a wide range of European languages it analyses church state relations on both sides of the Iron Curtain It discusses the following key themes the relationship between Orthodox churches and political power religious resistance to communism the political control of churches religion and propaganda monasticism and theological publications religious diplomacy within the Orthodox commonwealth and religious contacts between East and West *The Linguistics of Temperature* Maria

Koptjevskaja-Tamm,2015-02-11 The volume is the first comprehensive typological study of the conceptualisation of temperature in languages as reflected in their systems of central temperature terms hot cold to freeze etc The key issues addressed here include questions such as how languages categorize the temperature domain and what other uses the temperature expressions may have e g when metaphorically referring to emotions warm words The volume contains studies of more than 50 genetically areally and typologically diverse languages and is unique in considering cross linguistic patterns defined both by lexical and grammatical information The detailed descriptions of the linguistic and extra linguistic facts will serve as an important step in teasing apart the role of the different factors in how we speak about temperature

neurophysiology cognition environment social cultural practices genetic relations among languages and linguistic contact The book is a significant contribution to semantic typology and will be of interest for linguists psychologists anthropologists and philosophers [The Cold War on Film](#) Paul Frazier,2021-07-12 The Cold War on Film illustrates how to use film as a teaching tool It stands on its own as an account of both the war and the major films that have depicted it Memories of the Cold War have often been shaped by the popular films that depict it for example *The Manchurian Candidate* *The Hunt for Red October* and *Charlie Wilson's War* among others The Cold War on Film examines how the Cold War has been portrayed through a selection of 10 iconic films that represent it through dramatization and storytelling as opposed to through

documentary footage The book includes an introduction to the war's history and a timeline of events Each of the 10 chapters that follow focuses on a specific Cold War film Chapters offer a uniquely detailed level of historical context for the films weighing their depiction of events against the historical record and evaluating how well or how poorly those films reflected the truth and shaped public memory and discourse over the war A comprehensive annotated bibliography of print and electronic sources aids students and teachers in further research

The Palgrave Handbook of Presidents and Prime Ministers From Cleveland and Salisbury to Trump and Johnson Michael Patrick Cullinane, Martin Farr, 2022-01-13 This handbook examines the personal relationships between American presidents and British prime ministers It aims to determine how personal diplomacy shaped the Anglo American relationship and whether individual leaders made the relationship special From the great rapprochement of the 1890s to the Cold War and contemporary transatlantic rapport the Anglo American relationship has been one of global significance making presidents and prime ministers central to international security trade and commerce culture and communication Naturally it explores the ideas and convictions of presidents and prime ministers the political parties they led as well as the political images constructed in the media and how the aura of the Anglo American relationship might differ from the reality With a deeper understanding of these political leaders and the relationship they forge with their counterparts we come that much closer to appreciating the dynamics of transatlantic statecraft
