*The Cold War as Rhetoric* Lynn B. Hinds, Theodore O. Windt, 1991-09-30 Rhetoric Lynn Boyd Hinds and Theodore Windt argue is central to shaping both political consciousness and political culture In this important new contribution to Praeger's Series in Political Communication they examine how the rhetoric of the early Cold War years was used to create and develop a national and international reality The pervasive political view of events motives actions and policy was largely created in the years between 1945 and 1950 and grew from a pre existing set of rhetorical beliefs as well as from the political speeches and pronouncements of the time Hinds and Windt focus their study on American rhetoric applied to Soviet American relations centering essentially on Europe They offer a brief outline of the theoretical principles used in their analysis and follow with a look at certain images of the USSR selected for use by American politicians In subsequent chapters the authors trace developments from the end of World War II to Winston Churchill's Iron Curtain speech thoroughly explore the British leader's address and its effect in dividing the world into two warring camps analyze the writing and presentation of the 1947 Truman Doctrine and its suggestion of two ways of life and detail the Truman Loyalty Program and the 1947 House Committee on Un American Activities hearings in Hollywood The remaining chapters discuss George Marshall's address originating the European Recovery Act George Kennan's Sources of Soviet Conduct contemporary critics and such proofs as the Korean War which showed the rhetoric to be correct This work will be an important reference tool for courses in political communication American history political science and presidential studies and a useful addition to library collections

**The Rhetorical Presidency, Propaganda, and the Cold War, 1945-1955** Shawn J. Parry-Giles, 2002 Both Truman and Eisenhower

combined bully pulpit activity with presidentially directed messages voiced by surrogates whose words were as orchestrated by the administration as those delivered by the presidents themselves A Review of the private strategizing sessions concerning propaganda activity and the actual propaganda disseminated by the Truman and Eisenhower administrations reveals how they both militarized propaganda operations allowing the president of the United States to serve as the commander in chief of propaganda activity As the presidents minimized congressional control over propaganda operations they institutionalized propaganda as a presidential tool expanded the means by which they and their successors could perform the rhetorical presidency and increased presidential power over the country s Cold War message naturalizing the Cold War ideology that resonates yet today Of particular interest to scholars and students of political communication the modern presidency and Cold War history

**More Than a Doctrine** Randall Fowler,2018-05-01 Given on January 5 1957 the Eisenhower Doctrine Address forever changed America s relationship with the Middle East In the aftermath of the Suez Crisis President Dwight D Eisenhower boldly declared that the United States would henceforth serve as the region s protector of freedom against Communist aggression Eighteen months later the president invoked the Eisenhower Doctrine landing troops in Lebanon and setting an enduring precedent for U S intervention in the Middle East How did Eisenhower justify this intervention to an American public wary of foreign entanglements Why did he boldly issue the doctrine that bears his name And most important how has Eisenhower s rhetoric continued to influence American policy and perception of the Middle East Randall Fowler answers these questions and more in *More Than a Doctrine* With the expansion of America s global influence and the executive branch s power presidential rhetoric has become an increasingly important tool in U S foreign policy nowhere more so than in the Middle East By examining Eisenhower s rhetoric *More Than a Doctrine* explores how the argumentative origins of the Eisenhower Doctrine Address continue to impact us today

**From Total War to Total Diplomacy** Daniel Lykins,2003-10-30 Domestic economic and ideological concerns

during the Cold War drove many national leaders to promote U S international activism This study presents the domestic sources and goals underlying the creation of America s Cold War policies and the selling of those policies to the public Its examination of the Advertising Council illustrates how those activist international foreign policies reflected the domestic agenda of the Council s private supporters By cooperating with the Ad Council the American business community enlisted in the domestic propaganda programs of the wartime and early postwar years in an attempt to defeat the continued threats they perceived from the New Deal This emerges as a central goal and consequence of advertising s promotion of President Truman s Cold War policies The Advertising Council s representation of the moderate businessmen of the early postwar years casts a sharp light on the continuing accommodations made with the expansion of governmental power after the war and the shifting cooperation between the moderate and conservative wings of business to reshape that federal power The Council s private propaganda programs presented in commercial and public service advertising related most American problems such as race relations labor relations conservation and even safe driving among others to an asserted total foreign threat That propaganda hoped to convince Americans that their security prosperity and freedom all required shaping the world in a way that protected the nation s free enterprise political economy presented as the source of all American freedoms **Cold War**

Spencer C. Tucker, Priscilla Roberts, 2007-09-10 **American Cold War Culture** Douglas Field, 2005 This book guides the reader through recent and established theories as well as introducing a number of previously neglected themes films and texts *General Eisenhower* Ira Chernus, 2002 During the Second World War Dwight D Eisenhower formulated an ideology that encompassed deeply held ideas about human nature society and political life From the day the war ended Eisenhower promoted this ideology he considered the production of words as an end in itself essential to the real business of governing During his years as Army Chief of Staff president of Columbia University Allied Commander in Europe and candidate for President of the United States Eisenhower continuously emphasized the inspirational value of the spoken word Ira Chernus has created one of the first detailed studies of the ideology and rhetoric of a U S leader in the formative years of the Cold War showing how words and ideas fostered a conservative culture of nationalism and fear Eisenhower s use of language fulfilled consciously manipulative ends while also reflecting sincerely held ideas *General Eisenhower Ideology and Discourse* reveals how one man helped construct the sense of national and global insecurity that pervaded American life for decades

*The Inaugural Addresses of Twentieth-Century American Presidents* Halford R. Ryan, 1993-06-30 The essays in Halford Ryan s *The Inaugural Addresses of Twentieth Century American Presidents* explore how presidents have used their addresses to empower themselves in office The volume s construct holds that the president delivers persuasive speeches to move the Congress and the people and to move the people to move the Congress if it is intransigent Even on Inauguration Day a largely ceremonial occasion the president seeks acquiescence and action from Congress and the people in his first rhetorical deed as the nation s chief executive officer Since scholars agree that the rhetorical presidency arose in the twentieth century

with Theodore Roosevelt the book commences with Roosevelt's address followed by all subsequent presidents inaugurals including that of Bill Clinton. The authors' methodology applies classical rhetoric to the nexus of political discourse: the interrelationships between the speaker, the speech, and the audience, discussing *vox populi*, *elocutio*, *inventio*, and *actio*. Each of the chapters analyzes the political situation with regard to political purpose, giving special attention to genre criticism and to the themes of campaign rhetoric that were or were not carried forth into the inaugural address. The essayists explicate the evolution of each inaugural's preparation, criticize its delivery, and evaluate its persuasive strengths and weaknesses by accounting for its reception by the media and by the American people. Recommended for scholars of political communication and rhetoric, political science, history, and presidential studies. *The Encyclopedia of the Cold War*, Spencer C.

Tucker, 2007-09-12. A comprehensive five-volume reference on the defining conflict of the second half of the 20th century, covering all aspects of the Cold War as it influenced events around the world. The conflict that dominated world events for nearly five decades is now captured in a multivolume work of unprecedented magnitude from a publisher widely acclaimed for its authoritative military and historical references. Under the direction of internationally known military historian Spencer Tucker, ABC-CLIO's *The Encyclopedia of the Cold War: A Political, Social, and Military History* offers the most current and comprehensive treatment ever published of the ideological conflict that not so long ago enveloped the globe. From the Second World War to the collapse of the Soviet Union, *The Encyclopedia of the Cold War* provides authoritative information on all military conflicts, battlefield and surveillance technologies, diplomatic initiatives, important individuals, and organizations; national histories, economic developments, societal and cultural events, and more. The nearly 1,300 entries, plus topical essays and an extraordinarily rich documents volume, draw heavily on recently opened Russian, Eastern European, and Chinese archives. The work is a definitive cornerstone reference on one of the most important historical topics of our time.

**Apocalypse Management** Ira Chernus, 2008. *Apocalypse Management* explains Dwight Eisenhower's eight years of self-defeating cold war policies by analyzing the pattern of Eisenhower's private and public discourse, a pattern that still dominates U.S. foreign policy, keeping us in the same state of national insecurity that marked the Eisenhower era. **Naval**
