Coleridge And The Doctors:

Coleridge and the Doctors, 1795-1806 Neil Vickers, 2004 What did Coleridge know about medicine and how did it influence the development of his critical thought Neil Vickers sets out to answer this question in this radical reinterpretation of Coleridge's career between 1795 and 1806 Coleridge and the Doctors changes the way we look at Coleridge's intellectual development and reveals the richness of his involvement in the eighteenth century tradition of philosophical medicine and its determining influence on his critical and philosophic stance The book also contains a revisionary analysis of Coleridge's dealings with opiates and offers a comprehensive account of British early Romantic medicine Coleridge and the Doctors, 1795-1806 Neil Vickers, 2004 Neil Vickers surveys Coleridge's intellectual development through his medical studies focusing on 1795-1806 when he produced most of the poetry for which he is remembered and just as importantly when he lost his health for good **Doctors and patients; or, Anecdotes of the medical world and curiosities of medicine** John Timbs, 1873 The Welsh Fasting Girl Varley O'Connor, 2019-05-07 Praise for the Previous Novels of Varley O'Connor Thoroughly researched and lively Vogue Elegantly wrought hardheaded and tenderhearted Michael Chabon Honesty and compassion inform every page and there are passages so musical and full of grace they read like hymns Reading groups should rejoice Sigrid Nunez O'Connor captures the dangerous intersection between private life and the forces of history and gives the reader that rare pleasure of inhabiting another family life that feels at once entirely familiar and new Susan Richards Shreve Twelve year old Sarah Jacob was the most famous of the Victorian fasting girls who claimed to miraculously survive without food serving as flashpoints between struggling religious scientific and political factions In this novel based on Sarah's life and premature death from what may be the first documented case of anorexia an American journalist recovering from her husband's death in the Civil War leaves her home and children behind to travel to Wales where she investigates Sarah's bizarre case by becoming the young girl's friend and confidante Unable to prevent the girl's tragic decline while doctors nurses and a local priest keep watch she documents the curious family dynamic the trial that convicted Sarah's parents and an era's hysterical need to both believe and destroy Sarah's seemingly miraculous power Intense dark and utterly compelling The Welsh Fasting Girl delves into the complexities of a true story to understand how a culture's anxieties led to the murder of a child Varley O'Connor is the author of five novels including The Welsh Fasting Girl The Master's Muse and The Cure She lives in Cleveland Heights Ohio The Animal's Defender and Zoophilist, 1904 The Zoophilist and Animals' Defender, 1904 Opium and the Romantic Imagination Alethea Hayter, 2015-07-30 Does the habit of taking drugs make authors write better or worse or differently Does it alter the quality of their consciousness shape their imagery influence their technique For the Romantic writers of the nineteenth century many of whom experimented with opium and some of whom were addicted to it this was an important question but it has never been fully answered In this study Alethea Hayter examines the work of five writers Crabbe Coleridge De Quincey Wilkie Collins and Francis Thompson who were

opium addicts for many years and of several other writers notably Keats Edgar Allan Poe and Baudelaire but also Walter Scott Dickens Mrs Browning James Thomson and others who are known to have taken opium at times The work of these writers is discussed in the context of nineteenth century opinion about the uses and dangers of opium and of Romantic ideas on the creative imagination on dreams and hypnagogic visions and on imagery so that the idiosyncrasies of opium influenced writing can be isolated from their general literary background The examination reveals a strange and miserable region of the mind in which some of the greatest poetic imaginations of the nineteenth century were imprisoned

Animals' Defender and Zoophilist, 1926 A Complete History of the Case of the Welsh Fasting-girl (Sarah Jacob), with Comments Thereon; and Observations on Death from Starvation Robert Fowler (M.D.), 1871 **Doctor of Society** Roy Porter, 2016-10-04 First published in 1992 this book explores how we come to hold our present attitudes towards health sickness and the medical profession Roy Porter argues that the outlook of the age of Enlightenment was crucially important in the creation of modern thinking about disease doctors and society To illustrate this viewpoint he focuses on Thomas Beddoes a prominent doctor of the eighteenth century and examines his challenging pugnacious radical and often amusing views on a wide range of issues concerning the place of illness and medicine in society Many modern debates in medicine continue to echo the topics which Beddoes himself discussed in his ever trenchant and provocative manner This book will be of interest to those studying the history of medicine social history and the Enlightenment

Always Connect Francesca Di Blasio, Maria Micaela Coppola, Greta Perletti, 2024-08-12 Literature and its interactions with other disciplines such as history philosophy anthropology the visual and multimedia arts social sciences medicine technologies are at the core of many potential and multifaceted investigations originating within literary discourse itself Through these multifarious multidisciplinary approaches literature can be seen as a complex and dynamic system in which issues of cross cultural contact can be tackled from different theoretical and methodological points of view This volume focuses on the philosophical and scientific debate on cultural contact by investigating the critical implications of these dynamics through multidisciplinary perspectives to literary studies and bridging the gap between apparently divergent approaches
