Coleridge's Metaphors Of Being:

Coleridge's Metaphors of Being Edward Kessler, 2015-03-08 In an original and provocative demonstration that Coleridge's later poetry took on a powerful metaphysical conception Edward Kessler emphasizes Coleridge's struggle with language as a means of both expressing and creating Being While many of Coleridge's late poems are generally viewed as fragments that constitute an aesthetic failure Professor Kessler contends that what at first may appear to reflect Coleridge's inability to finish a poem can otherwise be seen as a deliberate rejection of what the poet came to see as a confining form Originally published in 1979 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905

The Mirror Metaphor and Coleridge's Mysticism Kiyoshi Tsuchiya, 2000 This study treats Coleridge's thinking as an integral whole and follows in detail the chronological development of Coleridge's quest It begins by placing modern subjectivity within the history of the mirror metaphor that here represents mysticism in the west from antiquity to modernity It then analyzes Coleridge's encounter with the metaphor and traces his lifelong engagement with it that culminates in the formation of the Pentad It discusses his early poems and poetics his reading and rewriting of Kant and his own transcendentalism seen in *Biographia Literaria* and *Aids to Reflection* It then compares Coleridge's mirror metaphor with two contemporary mirror metaphors by Lacan and Rorty

Coleridge's Figurative Language Tim Fulford, 1991 **Coleridge, Keats, and the Imagination** J. Robert Barth, John L. Mahoney, 1990 In November 1817 John Keats wrote to Benjamin Bailey The imagination may be compared to Adam's dream he awoke and found it truth The Romantic poet's concept of the imagination was central to their poetry becoming a persistent and powerful theme central to many works In nine new essays by scholars commissioned in honour of Walter Jackson Bate this collection examines the uses of the imagination in the poetry of Keats and Coleridge and by extension in all Romantic literature

Biographia epistolaris: being the biographical supplement of Coleridge's Biographia Literaria Samuel Taylor Coleridge, 1911

Emerson's Affinities Emile Alexandrov, Steve Stakland, 2025-11-24 This volume presents Ralph Waldo Emerson's engagement with diverse philosophical traditions with the concurrent aim of showing the contemporary relevance of his Transcendentalism As scholarship increasingly centers on Emerson's place within American philosophy this collection offers fresh insights into the expansive reach of his thought across Western and Eastern traditions spanning the nineteenth century to the present Featuring comparative analyses and innovative applications of Transcendentalism it

connects Emerson's ideas to global philosophies, religions, and cultures. Thematically organized into three parts, the volume first situates Emerson within Romanticism and Platonism. Part 2 examines his metaphysics and his intersections with both Eastern and Western religious thought. Finally, Part 3 applies his philosophy to education, aesthetics, environmental ethics, and politics. The cosmopolitan essays in this collection situate Emerson not only within Western thought but also in dialogue with Greek, Buddhist, Islamic, and Vedantic philosophies. Geared primarily toward scholars and advanced students, though accessible to well-informed casual readers, the contributions are meticulously researched and calibrated for specialists in American philosophy, literature, religious studies, and Emerson's oeuvre. Emerson's Affinities is essential reading for scholars and graduate students in American Transcendentalism, literature, philosophy, and religious studies.
