

Coleridge's Criticism on Shakespeare

Biographia Literaria: Chapter XV

Coleridge is less well-known for his published prose works *Biographia Literaria* and *Literary Remains*, both aimed at a more serious audience than his poetry. These works made him admired as a critic, but his thoughts on Shakespeare, mostly delivered as lectures, were never gathered together during his lifetime. Coleridge was aware of the requirements of a number of different audiences for his varying literary output: he writes of the need to keep his audience at a lecture entertained. Fortunately many sources still exist: lecture notes, newspaper reports, notes taken by members of the audience, mentions in letters. Editing these fragments has been a challenging job ever since.

The lectures took place between about 1808 and 1819, and as well as Shakespeare he spoke on a variety of philosophical and literary subjects. Talking of Shakespeare, though, he focused on a handful of plays: *Hamlet*, *The Tempest*, *Richard II*, *Othello*, *Romeo and Juliet*, *Love's Labour's Lost* and *Macbeth*, and with the narrative poems. He admired *King Lear* and *Antony and Cleopatra*, but hated *Measure for Measure*:

"This Play, which is Shakespeare's throughout, is to me the most painful, say rather the only painful part of his genuine works. The comic and tragic parts... the one disgusting, the other horrible; and the pardon and marriage of Angelo not merely baffles the strong indignant claim of Justice (for cruelty, with lust and damnable Baseness, cannot be forgiven, because we cannot conceive them as being morally repented of) but it is likewise degrading to the character of Woman."

He took a surprisingly modern view of the need to put Shakespeare into historical context: "so as to see and be able to prove what of Shakespeare belonged to his Age and was common to all the first-rate men", and often compared Shakespeare to other writers such as Spenser and Milton.

He's extraordinarily observant about how Shakespeare works as a dramatic writer. "In his mode of drawing characters... from the whole course of the play, or out of the mouths of his enemies or friends." He takes Polonius as an example "which actors have often misrepresented: Shakespeare never intended to represent him as a buffoon. It was natural that Hamlet, a young man of genius and fire, detesting formality,...should express himself satirically; but Hamlet's words should not be taken as Shakespeare's
