## Coleridge's Philosophy Of Language:

**Coleridge's Philosophy of Language** James C. McKusick, 1986      **Coleridge's Philosophy of Language** James Chase McKusick, 1988      **Coleridge's Philosophy of Language** A. Page, University of Hull, 1981      Coleridge's Spiritual Language Tim Fulford, 1991-10-13      **Coleridge's Figurative Language** Tim Fulford, 1991      **Wordsworth, Coleridge, and 'the language of the heavens'** Thomas Owens, 2019-05-30

Thomas Owens explores some of the exultant visions inspired by Wordsworth's and Coleridge's close scrutiny of the night sky, the natural world, and the domains of science. He examines a set of scientific patterns drawn from natural, geometric, celestial, and astronomical sources which Wordsworth and Coleridge used to express their ideas about poetry, religion, literary criticism, and philosophy, and establishes the central importance of analogy in their creative thinking. Analogies prompted the poets' imaginings in geometry and cartography in nature representations of the moon and natural history; studies of spider webs, streams, and dew in calculus and conical refraction; and in the discovery of infra-red and ultraviolet light. Although this is primarily a study of the patterns which inspired their writing, the findings overturn the prevalent critical consensus that Wordsworth and Coleridge did not have the access, interest, or capacity to understand the latest developments in nineteenth-century astronomy and mathematics, which they did in fact possess. Wordsworth, Coleridge, and the language of the heavens reinstates many relationships which the poets had with scientists and their sources. Most significantly, the book illustrates that these sources are not simply another context or historical lens through which to engage with Wordsworth's and Coleridge's work, but are instead a controlling device of the symbolic imagination. Exploring the structures behind Wordsworth's and Coleridge's poems and metaphysics, it stakes out a return to the evidence of the Romantic imagination, not for its own sake, but in order to reveal that their analogical configuration of the world provided them with a scaffold for thinking an intellectual orrery which ordered artistic consciousness and which they never abandoned.

"The Romantic Chasm" Sung-won Lee, 1982      Publications of the Modern Language Association of America Modern Language Association of America, 1920. Vols for 1921-1969 include annual bibliography; called 1921-1955 American bibliography; 1956-1963 Annual bibliography; 1964-1968 MLA international bibliography.

*Coleridge, Form and Symbol, Or The Ascertaining Vision* Nicholas Reid, 2006. Reid demonstrates the centrality of concrete form for Coleridge, giving an integrated account of Coleridge's theory, including terms like symbol and organic form, and also situating these central Coleridgean concerns within a contemporary realist and non-theistic aesthetic. In addition, he offers a clear account of Schelling's place in the development of Coleridge's thinking. Reid's interdisciplinary approach will make this book invaluable, not only to Coleridge specialists, but also to students and scholars concerned generally with the history of philosophy, psychology, religion, and literature.

**BOOK JACKET      Language and Being** Duane Williams, 2017-09-21. Martin Heidegger's radical and for that controversial reflections on language were not simply a passing interest in his thinking, but a fundamental, career-long concern, arguably as significant to him as his study of being. This book

traces the intimate connection between language and being in Heidegger's philosophy and shows how they cannot be understood apart from one another. It discusses why Heidegger's undervalued philosophy of language is increasingly important, how it figures in the wider context of his work, and how it is to be approached and understood for our times. This includes the significance to Heidegger of being the logos principle, etymology, phenomenology, mysticism, and poetry. Illuminating a difficult yet highly significant area in Heidegger's thinking, Williams provides an insightful and authoritative interpretation of the topic. *Strange Power of Speech: Coleridge and the Poetic Use of Language* Michel Bugnon-Mordant, 1990

**Coleridge's Religious Imagination** Stephen Happel, 1983

**The Mirror Metaphor and Coleridge's Mysticism** Kiyoshi Tsuchiya, 2000. This study treats Coleridge's thinking as an integral whole and follows in detail the chronological development of Coleridge's quest. It begins by placing modern subjectivity within the history of the mirror metaphor that here represents mysticism in the West from antiquity to modernity. It then analyzes Coleridge's encounter with the metaphor and traces his lifelong engagement with it that culminates in the formation of the Pentad. It discusses his early poems and poetics, his reading and rewriting of Kant, and his own transcendentalism seen in *Biographia Literaria* and *Aids to Reflection*. It then compares Coleridge's mirror metaphor with two contemporary mirror metaphors by Lacan and Rorty.

**Coleridge's Blessed Machine of Language** Jerome Christensen, 1981

**Coleridge's Table Talk** Samuel Taylor Coleridge, 1899

**Coleridge, Language and the Sublime** C. Stokes, 2010-11-03. Traversing the themes of language, terror, and representation, this is the first study to engage Coleridge through the sublime, showing him to have a compelling position in an ongoing conversation about finitude. Drawing on close readings of both his poetry and prose, it depicts Coleridge as a thinker of the limit with contemporary force.

**The Table Talk and Omniana of Samuel Taylor Coleridge** Samuel Taylor Coleridge, 1884. *The Modern Language Review*, 1922

**Imagination, Metaphor and Mythopeia in Wordsworth, Shelley and Keats** Firat Karadas, 2008. The book studies metaphor, myth, and their imaginative aspects in the poetry of William Wordsworth, Percy Bysshe Shelley, and John Keats. Relying on Kantian, Romantic, Neo-Kantian, and modern ideas of imagination, metaphor, and myth, the book proposes that imagination is an inherently metaphorizing and mythologizing faculty because the act of perception is an act of giving form to natural phenomena and seeing similitude in dissimilitude, which are basically metaphorical and mythological acts. Studying selected poems, the author explores how, in its form-giving activity, the imagination of the speaking subject mythologizes and metaphorizes by seeing objects of nature as spiritual, animate, or divine beings and thus transforming them into the alien territory of myth. Myth and metaphor are analyzed in these poems mainly in two regards: first, myth and metaphor are handled as inborn aspects of imagination and perception, and the interaction between nature and imagination is presented as the origin of all mythology; second, to show how myth is re-created, time and again, by poetic imagination. Romantic mythography and re-creation of precursor mythologies are analyzed.

*Coleridge's Writings: On the Sublime* David Vallins, 2003. This new volume

demonstrates the extent and diversity of Coleridge's writings on the sublime. It highlights the development of his aesthetic of transcendence from an initial emphasis on the infinite progressiveness of humanity through a fascination with landscape as half-revealing the infinite forces underlying it and with literature as producing a similar feeling of the inexpressible to an increasing emphasis on contemplating the ineffable nature of God as well as the transcendent power of Reason or spiritual insight.
