

## ***Aspects of Coleridge's theory of imagination***

In Coleridge's works there are surprisingly few references to his theory of the imagination. His famous remarks that climax Book XIII of Biographia Literaria are inadequate as an exposition of a theory of the imagination: he does not define imagination per se at all, but instead subdivides it into two categories, primary and secondary imagination. For a more concise account of imagination itself one must turn to a statement in "The Statesman's Manual", in which Coleridge describes imagination as "that reconciling and mediatory power, which incorporating the reason in images of the sense, and organizing (as it were) the flux of the senses by the permanent and self-circling energies of the reason, gives birth to a system of symbols, harmonious in themselves, and consubstantial with the truths of which they are the conductors."

This statement reveals first that imagination is not a "faculty" of the mind, but is instead a process of activity within the mind, in which diverse elements in the external world are harmonized into a "gestalt". In this process the universal truths are connected with the concrete images and percepts then formed, with the aid of reason, into ideas. Thus these ideas are formed when the concrete form and the associated universal truth are processed together. Coleridge defines an idea as an "educt of the imagination actuated by pure reason."<sup>2</sup>

This remark involves four major elements: the universal truths; the concrete forms of the natural world; the mind and senses of the individual; and the end product of the interaction of the first three elements, namely the symbols, or ideas, or art. Coleridge defined the symbol as the "conductor" of truth, which should be "characterized by a translucence of the special in the individual, or of the general in the special, or of the universal in the general; above all by the translucence of the eternal through and in the temporal."<sup>3</sup> This seems to say, rather clumsily, that the symbol reveals the universal truth and the particular expression of that truth at the one time. All of this points to the central creed of the great romantic poets in England, Germany and France, namely "the great endeavour to overcome the split between subject and object, the self and the world, the conscious and the unconscious."<sup>4</sup>

Side-stepping the issue of "reason" temporarily, it is necessary to examine further the nature of the process of imagination. Coleridge called the imagination an esemplastic power, an adjective which he coined from the Greek words meaning "to shape into one."<sup>5</sup> Thus imagination operates esemplastically, unifying normally separated elements in the universe of perception. This is clarified by other statements by Coleridge: "The imagination modifies images, and gives unity to variety; it sees all things in one."<sup>6</sup> This basic principle is expressed forcefully in The Friend: "Every power in nature and in spirit must evolve an opposite, as the sole means and condition of its manifestation: and all opposition is a tendency to re-union . . . The identity of thesis and antithesis is the substance of all being."<sup>7</sup>

The Finite* Eric v.d. Luft, 2020-09-13 Since the 1970s I have pursued three separate but overlapping and sometimes simultaneous careers 1 philosopher writer teacher historian of the long nineteenth century 1789 1914 2 editor translator photographer publisher biographer encyclopedist 3 cataloging librarian rare books and special collections librarian historian of medicine Somehow these three vocations have garnered me some acclaim even an entry in Who's Who in America Each of them has resulted in some published or presented works Because these works have been scattered in a wide variety of venues some of which have gone out of print or have otherwise become generally unavailable and of course with the oral presentations being gone as soon as they are given I have thought it wise to select epitomize and bring them together in one place here Thus what follows in these volumes is what I consider to be the most important of my shorter works All translations are my own unless otherwise indicated

**The Presence of God in the Works of William Wordsworth** Eliza Borkowska, 2020-11-29 Approaching Wordsworth's writings from perspectives which have not been considered in critical literature this book offers a multiangled reflection on the technicalities of the poet's religious discourse including the methodology of *The Prelude* revision or Wordsworth's patent art of pious postscripts The book constitutes a self-contained whole and can be read independently Simultaneously it creates an unusual duet with *The Absent God in the Works of William Wordsworth* whose six chapters follow this book's eight chapters like a sestet which complements the octave becoming thus a tribute to Wordsworth as one of the most prolific sonneteers in history Both monographs build their theses on Wordsworth's entire oeuvre and embrace the whole of his wide lifespan Their completion in 2020 coincides with several round anniversaries the 250th anniversary of Wordsworth's birth the 200th anniversary of *The River Duddon* and the 170th anniversary of the publication of his autobiographical masterpiece *The Prelude*

**Nineteenth Century Religious Thought in the West** Ninian Smart, 1988 Now available in paperback the successful three volumes of *Nineteenth Century Religious Thought in the West* provide a fresh appraisal of the most important thinkers of that time Some essays centre on major figures of the period others cover topics trends and schools of thought between the French Revolution and the First World War The contributors are among the leading scholars in their field and analyse not only what was said but also why it was said and explore what is of lasting value in it Contributions are sufficiently clear to be of use to students in religious studies and cognate disciplines but have enough depth and detail to appeal to scholars

**Subjectivity and the Political** Gavin Rae, Emma Ingala, 2017-10-12 Despite or quite possibly because of the structuralist post-structuralist and deconstructionist critiques of subjectivity master signifiers and political foundations contemporary philosophy has been marked by a resurgence in interest in questions of subjectivity and the political Guided by the contention that different conceptions of the political are at least

implicitly committed to specific conceptions of subjectivity while different conceptions of subjectivity have different political implications this collection brings together an international selection of scholars to explore these notions and their connection Rather than privilege one approach or conception of the subjectivity political relationship this volume emphasizes the nature and status of the and in the subjectivity and the political schema By thinking from the place between subjectivity and the political it is able to explore this relationship from a multitude of perspectives directions and thinkers to show the heterogeneity openness and contested nature of it While the contributions deal with different themes or thinkers the themes thinkers are linked historically and or conceptually thereby providing coherence to the volume Thinkers addressed include Arendt Butler Levinas Agamben Derrida Kristeva Adorno Gramsci Mill Hegel and Heidegger while the subjectivity political relation is engaged with through the mediation of the law political ethics politics theological political inside outside subject person and individual institution relationships as well as through concepts such as genius happiness abjection and ugliness The original essays in this volume will be of interest to researchers in philosophy politics political theory critical theory cultural studies history of ideas psychology and sociology
