Collaboration For Diverse Learners Viewpoints And Practices:

Collaboration for Diverse Learners Victoria J. Risko, Karen Bromley, 2020-11-25 Educators often feel frustrated by their school's lack of comprehensive programs to address the needs of diverse learners. Many noted literacy experts believe that school programs for diverse learners will remain ineffectual until instruction involves teachers, specialists, administrators, and families in collaborative decision making, mediation, negotiation, and respect for differences. *Collaboration for Diverse Learners* brings together several expert perspectives on achieving effective collaboration to accelerate the literacy development of diverse learners. You will find in this important volume many resources to guide your own decision making and development of successful collaboration programs in depth analyses of collaborative efforts, multiple ways to think about collaboration and its implementation, and examples of collaborative projects that are successfully in place in schools throughout the United States. You'll be especially inspired by the first-hand stories of educators, children, and families who present the possibilities for partnerships that advance the learning of all students. Published by International Reading Association.

The author also provides an easy-to-administer survey for diagnosing a school's reading culture and demonstrates how to identify priorities and create a vision, encourage shared discussion, and study and move toward positive change that promotes ideal conditions for developing literacy. Aligned with national reading initiatives and standards, this updated, research-based edition includes a new chapter about gaining support from libraries, protocols for teacher groups reviewing student work, examples of teachers sharing their own personal reading with students, web sites, and tips for working with government and professional organizations.
