## **Collapse Of The Soviet Empire A View From Riga:**

**The Collapse of the Soviet Empire** George Neimanis,1997-02-19 An American academic describes the breakup of the Soviet Union and the formation of an independent Latvia from the vantage point of Riga where he was acting as an advisor to the Latvian Parliament and was a visiting faculty member at the time of the events This description is unusual for several reasons the author was based in Riga rather than Moscow or Leningrad where most reporters lived the work was written by someone who had access to the government and the author was able to understand the local press and people Background material on the Baltic countries and their relationship to the USSR is discussed By 1991 the Soviet system was floundering with people spending an inordinate amount of time standing in lines to cope with shortages The final breakdown of the Soviet empire began in the Baltic Republics where Baltic nationalism and Russian nationalism clashed By the end of 1991 the Baltic countries and most of the former Soviet republics had declared independence The Soviet Union has bequeathed to the successor states an infrastructure and ethos that makes the transition to democracy and a free market extremely difficult The work will interest those who want to learn what really happened during the breakdown of the USSR and those who need to deal with the changes that continue to occur in the successor states

**The Collapse of the Soviet Union, 1985-1991** David R. Marples,2016-09-17 Why did the Soviet Union collapse in 1991 The collapse of the Soviet Union has widely been seen as the result of the arms race and Cold War and the failure of the Soviet side to keep pace with new technology This book argues that the disintegration was mainly a result of two interrelated factors the rise of the Soviet national republics and the manipulation of the new Russian presidency by Boris Yeltsin in what became a direct power struggle between Yeltsin and the Soviet leader Gorbachev Written in a clear and accessible manner the book provides an explanation of how the national question came to dominate Soviet politics by 1990 1 analysis of the economic crisis that occurred in the late 1980s a chapter devoted to the year 1991 from the referendum to reform the Soviet Union to the unforeseen dissolution of the country by December a discussion of the personalities of and political confrontation between the two key statesman Gorbachev and Yeltsin Also containing a Chronology Glossary and Who's Who of key figures The Collapse of the Soviet Union is essential reading for students of twentieth century European history

The Collapse of the Soviet Union Paul A. Winters,1999 A collection of 21 brief essays most by U S writers chronicles the disintegration of the Soviet empire from the reforms of the 1980s to the dramatic events of 1991 with projections for the future of the newly independent states

Blood in the Forest Vincent Hunt,2017-05-04 With original research and interviews with survivors a journalist reveals the brutal yet forgotten battles in Latvia during the final months of WWII While the eyes of the world were on Hitler's bunker more than half a million men fought six cataclysmic battles in the fields and forests of Western Latvia known as the Courland Pocket Just an hour from the capital Riga German forces bolstered by Latvian Legionnaires were trapped with their backs to the Baltic Forced into uniform by Nazi and Soviet occupiers Latvian fought Latvian sometimes brother against brother Hundreds

of thousands of men died for little territorial gain in unimaginable slaughter When the Germans capitulated thousands of Latvians continued a war against Soviet rule from the forests for years afterwards An award winning documentary journalist Vincent Hunt travels through the modern landscape gathering eye witness accounts piecing together the stories of those who survived He meets veterans who fought in the Latvian Legion former partisans and a refugee who fled the Soviet advance to later become President Vaira Vike Freiberga A survivor of the little known concentration camp at Popervale details his escape from a death march and subsequent survival in the forests with a Soviet partisan group and a German deserter With detailed maps and expert contributions alongside rare newspaper archives photographs from private collections and extracts from diaries translated from Latvian German and Russian Hunt assembles a ghastly picture of death and desperation in a nation both gripped by war and at war with itself

**Nationalism in a Transnational Age** Frank Jacob, Carsten Schapkow, 2021-11-22 Nationalism was declared to be dead too early A postnational age was announced and liberalism claimed to have been victorious by the end of the Cold War At the same time postnational order was proclaimed in which transnational alliances like the European Union were supposed to become more important in international relations But we witnessed the rise a strong nationalism during the early 21st century instead and right wing parties are able to gain more and more votes in elections that are often characterized by nationalist agendas This volume shows how nationalist dreams and fears alike determine politics in an age that was supposed to witness a rather peaceful coexistence by those who consider transnational ideas more valuable than national demands It will deal with different case studies to show why and how nationalism made its way back to the common consciousness and which elements stimulated the re establishment of the aggressive nation state The volume will therefore look at the continuities of empire actual and imagined the role of foreign and otherness for nationalist narratives and try to explain how globalization stimulated the rise of 21st century nationalisms as well

The Dissolution of the Soviet Union Myra Immell, 2010 From the Back Cover How an event is remembered depends on the people who record it The broadest possible understanding of history comes from exploring multiple perspectives from different time periods different cultures different ideologies The Perspectives on Modern World History series provides multiple views of momentous events in recent history Using primary and secondary sources each volume provides background information on a significant event in modern world history presents the controversies surrounding the event and offers first person narratives from people who lived through or were impacted by the event All volumes in the series include an annotated table of contents a chronology a bibliography and a subject index For students and other researchers Perspectives on Modern World History helps develop critical thinking skills increases global awareness and enhances and understanding of international perspectives about historic events
